Action Plan: 6 Project: 9

Update provided by Sue Holmes on Oct 18, 2021 20:40:36

Action Plan 1.4: SY22 Digital Ecosystem (15.0% completed)

Our power/supporting standards and learning plan generator will be accessible to all teachers through our emPower Tools.

Action Plan 1.6: Community (25.0% completed)

Great communication of what EmpowerFZ looks like in classrooms and how it is benefitting students is going out from all of our schools to our community.

Action Plan 1.1: Leadership (34.5% completed)

Project 1.1.1: SY22 Facilitate zone-wide and internal instructional rounds at each school (34% completed)

Completed second set of instructional rounds at FMS.

√Determine problem of practice

Project 1.1.2: SY22 Promote and celebrate EmpowerFZ successes featuring students, alumni, staff and community (35% completed)

It is becoming more of the norm for schools to feature EmpowerFZ successes to their communities.

Action Plan 1.3: Modern Curriculum (0.0% completed)

Work over the summer identified power standards and supporting standards. During the summer and this fall we have developed proficiency scales for all K-12 standards. We are about to launch a learning plan generator which will load in our proficiency scales.

Action Plan 1.2: Instructional Model (25.0% completed)

Project 1.2.1: SY22 Regularly examine our EmpowerFZ instructional model (50% completed)

As a steering committee we recently updated our instructional identifiers that further illustrate our instructional model. We also reflected on all of the times we have used our model as a guide as well as reflected on our model to determine what changes we might need to make.

Project 1.2.2: SY22 Learner profile utilization will support student empowerment

We are on track to launch learner profiles right after fall break. We have developed resources for students, parents and staff regarding our learner profiles as well.

Action Plan 1.5: Professional Learning (37.0% completed)

More and more of our EmpowerFZ professional development is being led by our own teachers--growing from within!

Falcon High School

	%	#
● On Track	80.0	4
● Completed	20.0	1

School Overview

Falcon High School is located 20 miles northeast of Downtown Colorado Spring. The school is part of School District 49. Falcon High School is one of three high schools in the district which consists of three middle schools and eight elementary schools. Falcon High School is located in the Falcon Zone which is the largest of the District 49 Innovation Zones. The Falcon Zone covers 117 sq. miles of District 49's 133 sq. miles. The Zone is made up of one middle school, one high school, and four elementary schools.

Falcon High School currently has approximately 1160 students in grades nine through thirteen. The demographic makeup of the school is sixty-seven percent Caucasian, seventeen percent Hispanic, eight percent Multi-Racial, five percent African American and three percent Asian. The current facility was built in 2007 and contains state-of-the-art facilities for all students. Falcon High School is a comprehensive public institution that is focused on CTE, Concurrent Enrollment and provides a strong AFJROTC Program. Falcon High School has an eight-period alternating eight-period block schedule within a two-semester system. The Falcon High School staff is composed of a Principal, Three Assistant Principals, a Dean, four Counselors, and 66 certified teachers.

Approximately Thirty percent of Falcon High School students will attend a four-year college or university. Twenty percent will attend a two-year institution and 15 percent will enter a Career Technical Education pursuit upon graduation. Of the graduates attending a post-secondary institution eighty-four percent choose to remain in-state and sixteen percent go out of state.

Assessment Participation - The most recent and available participation data from the 2019 SPF shows that Falcon High School Met Performance on the States requirements for participation on CMAS Science and PSAT and SAT Assessments. Falcon students had an accountability participation rate of 95% in English Language Arts and Math which met the 95% participation requirement but had an 88.4% accountability participation rating in Science which did not meet the 95% threshold for participation. Overall Falcon High School

Course Participation - Of the 185 students enrolled in Advanced Placement Courses at Falcon High School, 67 are a minority, and 127 are Caucasian. Falcon High School has 151 students enrolled in Honors Courses with 35 of those students being a minority and 116 Caucasian. Data indicates that the overall participation in Advanced Placement Courses at Falcon High School has been falling over the last three years. This trend could be attributed to the rise in the number of opportunities that students have to take Concurrent Enrollment Courses through Pikes Peak Community College as well as the opportunity for students to gain college credit in articulated courses through CTE classes offered at Falcon High School.

In the Fall of 2019 Falcon High School had 102 students express interest in taking concurrent enrollment courses. 60 students chose to take English 121, 28 students chose to take English 122 and 15 students chose to take EMS 115. In the Spring of 2020, 23 students elected to take Nursing Assistant 101, 21 students chose to take Philosophy 112, 18 students chose to take History 121, 34 students chose to take NUA 170 and 171, 45 students took EMS 123, 124, 170, and 115 and 14 took English 121.

Process and Stakeholder Involvement In addition to the members of the building Administration Team assisting in the development and writing of the School Improvement Plan, the school's Department Chairs are part of the team that supports the plan development by working with their individual content area teams with data analysis, identification of opportunities for improvement based on data analysis and support in writing the improvement plan. Members of both of these groups serve on the School Accountability Committee which is also made up of parents and members of the School Parent Teacher Student Association. The SAC reviews the School Improvement Plan and provides parental and community input into key decisions regarding the use of District Mill Levy Override Funding used in support of school improvement efforts and any major decisions that impact changes to grading or scheduling priorities of the school.

Owner: Darryl Bonds

Action Plan: 3

Project: 5

Update provided by Darryl Bonds on Oct 12, 2021 17:27:43

Two of the three Action Plans are on track and are progressing. One action plan which is critical to individualized learning has yet to be realized. This is a critical component as students who are struggling to keep up with the pace of teachers providing whole-class instruction and moving the class lockstep are not being given the opportunity to learn at the pace that they need to understand the material. This is critical in a Standards-Based Grading Model where students should be given the opportunity to assess get additional instruction on material that they haven't learned and then reassess to demonstrate mastery.

Action Plan 2.1

Progress 68%

EmpowerFZ Engaging Environments

All Falcon High School Teachers will create classrooms that support engaging learning environments by creating classrooms that enable all students to pursue their individual curiosities and become active participants in setting their own educational goals, developing strategies by leveraging technology to achieve them, and reflecting on the learning process to improve learning outcomes.

Falcon Middle School

	%	#
● On Track	44.44	8
● Completed	55.56	10

School Overview - Falcon Middle School is located in Eastern El Paso County in School District 49. We are a public middle school serving approximately 900 students in grades 6-8. At Falcon Middle, we are all committed to a community built on trust, positive relationships, and high standards to create an environment that ignites academic curiosity and innovation. At FMS, we develop empowered learners who are intrinsically motivated critical thinkers with the perseverance to solve problems. All of our students receive instruction in the core content areas of ELA, math, science, and social studies. Additionally, all students participate in multiple Exploratory classes each year (Ex. Music, Art, PE, Technology, Spanish, etc.). It is our goal for students to experience many different things early in their middle school career that will help them focus in on specific electives later in 7th grade and during all of 8th grade. This helps students focus on specific skill sets related to future college and career work.

Falcon Middle is rated by the Colorado Department of Education as a "Performance" school as we are categorized as "Meet" in both Academic Achievement and in Academic Growth on the School Performance Framework.

Assessment Participation - We met the state assessment participation rate as more than 95% of our students participated in taking the 2019 CMAS assessments in ELA, Math, and Science.

Process and Stakeholder Involvement - As part of our professional development and professional learning community (PLC) time during the 18-19, 19-20, and 20-21 school years, all FMS staff reviewed the achievement and growth data from CMAS to begin the school improvement planning process. Staff identified positive and negative trends in our data for each grade level, compared our data to other middle schools, and also looked at disaggregated data for our different subgroups. Staff collaborated to identify the priority performance challenges from this data that lead to the development of action steps to improve our student achievement. Our School Accountability Committee also met and reviewed the achievement data and provided input for the necessary improvement strategies.

Falcon Middle School's Administrative team, Leadership team, Faculty, PTSA, and School Accountability Committee were all involved in the review of school achievement data to prioritize our performance challenges. Staff have been analyzing the CMAS achievement data and Quarterly Common Assessment data to determine where our specific achievement gaps are. The summary of their findings will be presented to both the PTSA and School Accountability Committee for review and input. The feedback and ideas from these parent-run committees as well as our Leadership Team and Faculty were all used to formulate the actions steps within this unified improvement plan. The plan was presented for review and approval to the School Accountability Committee in February of 2020.

Data Review and Identified Opportunities for Improvement - In the academic achievement area, Falcon Middle School received a rating of Meets the expectation overall according to the 1-year school performance framework. For achievement, our English Learners did not meet in the areas of English/ Language Arts and Math. Our Free/Reduced-Price Lunch Eligible student meet expectation in English/ Language Arts and Science will rating as approaching in Math. Minority Students meet expectation in English/Language Arts and were approaching in the areas of Math and Science. Our Students with Disabilities did not meet expectation in English/Language Arts, Math, and Science.

Falcon Middle School has Met the state performance expectation in academic growth overall according to the 1-year school performance framework. More specifically, our English Learners were approaching in the growth areas of English/Language Arts and Math. Free/Reduced-Price Lunch Eligible Students met the growth expectation in English/Language Arts but were approaching in the area of Math. Minority

Owner: Brian Smith

Action Plan: 3

Project: 18

Update provided by Brian Smith on Oct 12, 2021 14:34:27

Falcon Middle School is making strong progress of our implementation of EmpowerFZ to personalize learning for all students. Over 95% of our staff are proficient in our goal 2 objectives within the Modern Teacher Platform to great an Engaging Environment. We have about 70% of our staff proficient on Goal 3, which is focused on Elevated Instruction. Upon return from Fall Break, we will launch our work into Goal 4, which focuses on Enhanced Opportunities. Overall, our transition to the use of learning plans and measuring student competency of learning is progressing well.

Action Plan 3.1

Progress 95%

Engaging Environments

Teachers demonstrate thoughtful design of circumstances, objects, space or conditions by which learners are surrounded that tend to inspire them to take ownership of how, when and where they learn; it's where learners come alive! Engaging Environments incorporate the Big Ideas of Learner Voice, Safe & Caring Environments, and Blended & Flexible Learning Spaces.

During the 2021-2022 and 2022-2023 school years, Falcon Middle School teachers will complete full implementation of the Learner Centered Culture components, Modern Physical Learning Environment components, and Digital Learning Environment components within Modern Teacher to ensure that engaging environments enhance student learning. Administrators and the Instructional Coach will conduct classroom observation and feedback sessions to measure implementation of these components in every classroom.

For Learner Voice, teachers create conditions for learners to have input and provide meaningful feedback on the experiences in their classrooms. For Safe & Caring Environments, teachers ensure that learners feel physically, emotionally and educationally safe. For Blended & Flexible Learning Spaces, teachers create conditions that allow for a variety of environments (settings) and experiences for learners (physical & virtual).

Action Plan 3.2

Progress 44%

Enhanced Opportunities

Teachers provide and allow for creative and limitless platforms and vehicles that support and augment learning.

During the 2020-21 SY, FMS staff will receive Professional Learning around the Architect a Lesson Using Effective Pedagogy, Architech a Lesson Block Foundation, Architect Digital and Face-to-Face Learning Experiences. They will demonstrate fluency in these areas through observation and feedback cycles throughout the year.

In this area, there are multiple components that teachers will focus on. Firstly, Learner Choice: Teachers provide a pathway for students to fully and genuinely invest themselves in quality work that matters. Participating in learning design allows students to make meaning of content on their own terms. Second, Authentic & Creative Learning Experiences: Teachers immerse students in a wide variety of educational and instructional opportunities focused on connecting what students are taught in school to real-world issues, problems, and applications. Lastly, Global Collaboration: Teachers provide learning opportunities to broaden student perspectives and enrich student learning by collaborating with others and working effectively in teams locally and globally.

Owner: Brian Smith

Project: 6

Update provided by Brian Smith on Oct 07, 2021 19:54:03

Staff will begin their work in Goal 4 of the Modern Teacher platform upon return from Fall Break. This goal focuses on the components of this Action Plan. We have also scheduled some peer observations and Instructional Rounds to help staff learn and refine new practices focused on personalized learning.

Action Plan 3.3

Progress 77%

Elevated Instruction

Teachers plan, implement, and assess learning experiences driven by the needs, capacities, and interests of the learner. Teachers act as facilitators to empower students to take ownership of their learning.

By May 2023, Falcon Middle School students will engage in personalized learning using aligned learning plans with appropriate levels of rigor. The desired outcome is for every student to demonstrate personal growth that leads toward mastery of standards in all content areas and to see continuous growth in all content areas from students across all subgroups (SPED, GT, CLDE, Minority, F&R) through the implementation of personalized learning opportunities as indicated on local and state assessments (CMAS, STAR 360, AIMSweb, WIDA, etc.).

Teachers will design learning experiences that are customized to meet the individual preferences and needs of each learner based on levels of understanding and comprehension and provide differentiated support and purposeful, authentic assessments so that learners become proficient and beyond by advancing on demonstrated mastery of content and skills.

Owner: Brian Smith

Project: 5

Update provided by Brian Smith on Oct 07, 2021 19:52:52

All Falcon Middle School Instructional Staff completed their first observations and feedback cycles related to their Architecting a Rigorous Learning Experience module work. Instructional tasks are aligned to the rigor level of the standard. Teachers are utilizing Learning Plans with sections aligned to tasks where students can learn about a standard, practice it, and then demonstrate their evidence of learning. Currently, about 70% of our staff has completed Goal 3 within the Modern Teacher Platform that aligns to this work. Star 360 was also administered to all students for initial benchmark progress.

Bennett Ranch Elementary School

	%	#
● On Track	88.89	8
● Completed	11.11	1

School Overview - Bennett Ranch Elementary School is located in Eastern El Paso County in School District 49. We are a public elementary school serving approximately 325 students in grades PreK-5. At Bennett Ranch Elementary School, students are inspired to collaborate, learn, and grow through personalized learning opportunities that allow students to achieve mastery at individual paces, paths, and places. All students receive instruction in the core content areas of ELA, math, science, and social studies. Additionally, all students participate in Art, Music, and PE.

Bennett Ranch Elementary School is rated by the Colorado Department of Education as a "Performance" school as we are categorized as "meet" in the area of Academic Achievement and 'Approaching' in Academic Growth as rated on the School Performance Framework.

Assessment Participation - We met the state assessment participation rate as more than 95% (99.4%) of our students participated in taking the 2019 CMAS assessments in ELA, Math, and Science.

Process and Stakeholder Involvement - The Bennett Ranch Elementary School leadership team reviewed current and trend data to determine major improvement targets. As a team, we met to analyze data, identify needs and challenges, and isolate root causes. During Professional Learning Community (PLC) meetings each team shared information with their grade level teammates and communicate questions or concerns back to the building leadership. Our data is presented in multiple ways to identify curriculum and instructional needs, subgroup needs, trends, and possible root causes. Furthermore, BRES administration met with the SAC. Administration plans to meet quarterly with the SAC to review our Improvement Plan, to analyze progress monitoring data, and to make adjustments to our action steps if necessary.

Data Review and Identified Opportunities for Improvement - In ELA, Bennett Ranch Elementary School demonstrated little growth and achievement on the CMAS test for the last three years this assessment was given. We have 'met' for all subgroups for achievement, but not in the area of Academic Growth. The exception was our students with disabilities did not meet in achievement but were approaching in Academic Growth. In Math, Bennett Ranch met in the area of Achievement on the 2019 CMAS assessment for All Students.

Our 2020-2021 local assessment data for ELA indicates similar progress and achievement. For STAR 360, our median student growth percentile in STAR 360 was 41.80%. Additionally for ELA, our Acadience Reading scores indicated high percentages of students at benchmark or higher across all grade levels, including make above average progress in Kindergarten and 1st grades, and well above average progress in 2nd and 3rd grades. Our 2020-2021 local assessment data for math indicates less attainment in progress and achievement. STAR 360 data indicated a median student growth percentile of 42.80%. Additionally, our percent of daily student attendance was 94.39% during the 2019-2020 school year.

Based on our comprehensive needs assessment and data review, we have identified the following opportunities for improvement - students with disabilities need to demonstrate increased rates of growth, all students need to continue to demonstrate high levels of proficiency/achievement utilizing personalized learning opportunities, to have all students need to feel reconnected and safe at school (socially, emotionally, and physically) as we return following the pandemic as well as invest in a systematic, research-based approved literacy resource.

BRES BOY for SY2021/22 has showed some significant needs. We observed a great need in 1st grade DIBELS - PA and LNF. We also observed a great need in 3rd grade Fluency.

Root Cause Identification and Verification - After careful analysis of a variety of data sources - SPF, CMAS, and local data sources (Acadience Reading, STAR 360 Reading and Math, culture and climate surveys, etc.) - we identified and verified the following root causes:

1. Professional Learning/Building Capacity - All staff members need to continue to develop the capacity to build relationships with students and create learner-centered cultures within all classrooms to support connectedness and social-emotional intelligence and health as we return following the pandemic. If we build positive relationships through safe and caring learning environments then student learning, achievement, and resilience will increase. By providing teachers/staff with the necessary tools to meet the needs of the students they serve, benefits all! We also have the need of a Personalized, Instructional Coach. By hiring our instructional coach, we will continue to empower our teachers to take risks and ultimately meet the various needs of our students.

2. Instructional Focus - Increased focus on instructional practices and enhanced opportunities for rigorous, relevant, and relational learning is critical. If we create individualized, innovative pathways within flexible learning environments, then students will take ownership of and demonstrate their learning in a variety of ways. Within Enhanced Opportunities - Increased focus on instructional practices and enhanced opportunities for rigorous, relevant, and relational learning is critical.

3. Resources - Teachers and paraprofessionals continue to need training, curricular resources, and assessment program analysis to effectively personalize learning for students and provide intervention to target learning loss and support student achievement. If we provide focused, systemic and ongoing professional learning to empower and grow staff members, then we will become facilitators of blended learning opportunities resulting in increased student competency. By Elevating Instruction and providing teachers and paraprofessionals with the tools needed, we will empower and grow not only our staff members, but the students we serve. We also see a need to revamp our master teaching schedule with common plan times and include a dedicated 'Ranch Roundup'/Intervention time.

These root causes were examined and verified by assessment data and perception data, with input from the building leadership team, and reviewed by the School Accountability Committee (SAC).

Owner: Martina Meadows

Action Plan: 3

Project: 9

Update provided by Martina Meadows on Sep 09, 2020 16:25:07

As a the new Principal to BRES, I am continuing to learn the needs of the building. The projects/action steps noted here may change as the admin. team continues to learn.

Action Plan 4.1

Progress 15%

Engaging Environments

Teachers demonstrate thoughtful design of circumstances, objects, space or conditions by which learners are surrounded that tend to inspire them to take ownership of how, when and where they learn; it's where learners come alive! Engaging Environments incorporate the Big Ideas of Learner Voice, Safe & Caring Environments, and Blended & Flexible Learning Spaces.

During the 2021-2022 and 2022-2023 school years, Bennett Ranch teachers will complete full implementation of the Learner Centered Culture components, Modern Physical Learning Environment components, and Digital Learning Environment components within Modern Teacher to ensure that engaging environments enhance student learning. Administrators and the Instructional Coach will conduct classroom observation and feedback sessions to measure implementation of these components in every classroom.

For Learner Voice, teachers create conditions for learners to have input and provide meaningful feedback on the experiences in their classrooms. For Safe & Caring Environments, teachers ensure that learners feel physically, emotionally and educationally safe. For Blended & Flexible Learning Spaces, teachers create conditions that allow for a variety of environments (settings) and experiences for learners (physical & virtual).

Action Plan 4.3

Progress 29%

Elevated Instruction

Teachers plan, implement, and assess learning experiences driven by the needs, capacities, and interests of the learner. Teachers act as facilitators to empower students to take ownership of their learning.

By May 2023, Bennett Ranch Elementary School students will engage in personalized learning using aligned learning plans with appropriate levels of rigor. The desired outcome is for every student to demonstrate personal growth that leads toward mastery of standards in all content areas and to see continuous growth in all content areas from students across all subgroups (SPED, GT, CLDE, Minority, F&R) through the implementation of personalized learning opportunities as indicated on local and state assessments (CMAS, STAR 360, Acadience Reading and Math, AIMSweb, WIDA, etc.).

Teachers will design learning experiences that are customized to meet the individual preferences and needs of each learner based on levels of understanding and comprehension and provide differentiated support and purposeful, authentic assessments so that learners become proficient and beyond by advancing on demonstrated mastery of content and skills.

Falcon Elementary School of Technology

School Overview Falcon Elementary School of Technology is located in Eastern El Paso County in School District 49. We are a Title One public elementary school serving approximately 250 students in grades K-5. Falcon Elementary School of Technology is an innovative center of learning with a mission to prepare all students to be productive citizens and independent, lifelong learners. We have a committed school community that fosters the successful academic adventure of each and every student in a safe and nurturing environment using a personalized approach to learning. This allows students to perform and grow using individual paces, paths, and places. All students receive instruction in the core content areas of ELA, math, science, and social studies. Additionally, all students participate in Art, Music, and PE classes.

Falcon Elementary School of Technology is rated by the Colorado Department of Education as a "Performance" school as we are categorized as "meet" in both Academic Achievement and in Academic Growth on the School Performance Framework. We are also a school-wide Title I school with approximately 40% of students qualifying for free or reduced lunch.

Assessment Participation - Falcon Elementary School of Technology met the 95% participation rate for the 2019 CMAS assessments in ELA, Math, and Science.

Process and Stakeholder Involvement - Falcon Elementary School of Technology has a Building Leadership Team (BLT) that consists of the Principal, the Dean of Students and the Instructional Coach. This team reviews current and trend data to determine major improvement targets. As a team, we meet to analyze data, identify needs and challenges, and isolate root causes. The case managers of Special Education, Culturally Linguistic Diverse Education and Gifted education analyze data and trends and identify areas of improvement within their own programs and report findings to the BLT. General Education staff meet with their grade level teammates during Professional Learning Community (PLC) meetings and communicate questions or concerns back to the BLT once data is evaluated and improvement areas identified. From there, data and feedback are presented and shared with the school community through a newsletter and in a formal setting during PTO and a School Advisory Committee (SAC) meeting. Our data is presented in multiple ways to identify curriculum and instructional needs, subgroup needs, trends, and possible root causes. share results and collect specific input and provide feedback. The BLT meets quarterly with the SAC to review our Improvement Plan, to analyze progress monitoring data, and to make adjustments to our action steps if necessary. The SAC reviewed the final improvement plan for the 2020-2021 on October 8, 2020 and will review the improvement plan for the 2021-2022 school year on August 11, 2021.

Data Review and Identified Opportunities for Improvement - Falcon Elementary School of Technology has demonstrated consistent growth and achievement in English Language Arts on the CMAS test for the last three years this assessment was given. We are 'approaching for all subgroups in achievement, with the exception of our students with disabilities. We are meeting in academic growth, with the exception of our students eligible for free/reduced lunches where we are 'approaching.' Our Acadience Reading data indicated that 50% of our K-5 students are at or above benchmark at the 2021-2022 beginning of the year testing.

Falcon Elementary School of Technology has demonstrated consistent growth and achievement on the CMAS math test for the last three years this assessment was given. We are 'meeting' for all subgroups in achievement, with the exception of our students with disabilities. We are 'exceeding' in academic growth for all subgroups tested. STAR 360 math data indicates that fifty four percent of students in 1st-5th grade are at grade level benchmark or higher and sixty seven percent of these students demonstrated growth of a year or more in STAR 360 math.

On our annual culture and climate survey, eighty nine percent of students indicated they feel safe at school and ninety four percent of students indicated they have an adult at school that cares about them. Eighty five percent of parents prefer to receive communication through e-mail, while sixty five percent of parents prefer a text message.

7) **Parent Engagement**- There needs to be opportunities for parents to engage with student learning through school sponsored activities including after school clubs and activities.

8) **Technology**- The name of our school needs to be re-branded to define "of technology."

These root causes were examined and verified by assessment data and perception data, with input from the building leadership team, and reviewed by the School Accountability Committee (SAC).

Owner: Paula Kavalec

Action Plan: 11

Project: 32

Update provided by Paula Kavalec on Oct 13, 2021 01:54:50

At Falcon Elementary School of Technology, we are focusing on elevated instruction and offering engaging environments for all students. We are incorporating Collaborative Classroom structures and strengthening our literacy instruction using Being a Reader, Making Meaning and Being a Writer in K-2. We have adopted and are incorporating Making Meaning into 3-5th grade ELA blocks alongside Benchmark Education which is our core curriculum. We have created and are using learning plans and learning roadmaps that teachers have developed using their grade level standards in reading, writing, and math. Our students are using data notebooks and there are opportunities presented for goal setting and data feedback. We have created weekly structured PLC's that are data driven and that are helping us craft and design our intervention and MTSS structures so that all students needs and deficits are catered for.

Action Plan 5.1

Progress 22%

During the 2022-23 school year, teachers will engage and plan Collaborative Literacy instructional delivery in Being a Reader, Being a Writer and Making Meaning in all K-5 classes.

SY 22- Add support personnel in reading to address the increase in interventions needed following COVID and summer slide deficits.

Owner: Paula Kavalec

ME 2. Strategy

ME 4. Learning and Improvement

ME 5. Workforce

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 4/5

- ~~Research funding support for additional personnel~~
- ~~Outline need for interventionist and best use of time/resources~~
- ~~Hire best person for the position~~
- ~~Ensure consistent support and mentoring in new position~~
- Regular check in with personnel to ascertain effectiveness of position.

Plan Details

This past year we had additional support using our PE teacher for reading interventions. This will not be available this next school year due to a return to normal schedules, but the need for reading support has not diminished. Adding a full time interventionist and two paraprofessionals to support in reading and math interventions will allow students to continue with performance momentum created in the last quarter of the 2020-2021 school year.

Resources

Title 1- \$28,000 for salary & benefits.

Project 5.4.3

Update provided by Paula Kavalec on Oct 13, 2021 03:09:36

Aug 02, 2021 - May 31, 2023

Completed

Progress 100%

√Maintain consistency of PM and regular conversations and accountability using PM tool reports.

SY 22/23- Provide consistent screening and progress monitoring tools to monitor and accelerate student growth in reading, math and early literacy skills.

Owner: Paula Kavalec

ME 2. Strategy

ME 4. Learning and Improvement

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 0/4

- Secure funding for progress monitoring tools
- Work with coach and interventionists for scheduling of PM
- Add PM dates to school calendar
- Maintain consistency of PM and regular conversations and accountability using PM tool reports.

Plan Details

Purchase subscription for Renaissance Star 360® to supplement K-5 student access. This tool will allow for consistent and intentional progress monitoring and data collection for supporting MTSS and targeted interventions. It will also allow for monitoring intervention and instructional practices effectiveness.

Action Plan 5.5

Associated Root Cause(s)

Science Instruction- Identify resources and materials needed to address new science standards K-5.

Update provided by Paula Kavalec on Oct 13, 2021 02:35:52

We will be working on forming our science leadership team in the spring of 2022. We are compiling a list of science materials that are used and needed at each grade so that there is a running record each year and to ensure that materials are available as needed. The digital platforms are working very well so far and the resources are excellent and address the new science standards. The leadership team will work on identifying what is needed for solid science instruction and what deficits we are finding.

Project 5.5.1

Associated Root Cause(s)

Social Emotional Learning- Following a year of COVID-19, provide consistent opportunities in every classroom for social emotional guidance lessons and consistent involvement of the school counselor.

Update provided by Paula Kavalec on Oct 13, 2021 02:39:09

Our new counselor has been a great addition and he is working on building relationships with students and honing in on skills needed to identify at risk students. The onboarding of Caring School Communities is helping develop strong classroom communities and helping with our school culture through the buddy program. We will work on social emotional opportunities for families in the spring of 2022. The counselor and new family liaison are working on getting to know our families this semester and helping with food bags and building rapport with at risk families.

Checklist (Equal Weighting) : 0/3

- Hire a new counselor
- Spend time reviewing SEL curriculum and mentoring for scheduling consistent lessons in grades K-5
- Set regular counselor meetings to review lessons and curriculum components.

Plan Details

Provide consistent opportunities in every classroom for social emotional guidance lessons and consistent involvement of the new school counselor.

Project 5.6.2

Aug 02, 2021 - May 31, 2023

Completed

Progress 100%

SY 22/23- Engagement of counselor in regular check in's and relationship building with at risk students.

Owner: Paula Kavalec

ME 2. Strategy

PE CP 1 How We Treat Each Other

PE SP 1. Value All People

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

PE SP2. Sustain Enduring Trust

Checklist (Equal Weighting) : 1/4

- ~~During beginning of the year counselor meetings, review scheduling of groups~~
- Mentor counselor on developing anecdotal notes during group sessions with at risk students
- Monitor counselor schedule throughout the year for consistent group meetings
- Check in with classroom teachers to assess relationship status with at risk students

Plan Details

Have counselor create regular schedule for student check in throughout the day with students and provide opportunities for relationship and team building activities in the classroom or in pull out support during group/individual sessions.

Update provided by Paula Kavalec on Oct 13, 2021 02:10:29

Our counselor has created a calendar and formed groups that he is meeting with regularly. He is focused on interventions with at risk students and has involved himself in several trainings to identify at risk students and participated in reporting some DHS cases independently. He regularly check's in with several students who struggle with behavior and he is building good rapport with several students.

Project 5.6.3

Update provided by Paula Kavalec on Oct 13, 2021 03:17:03

Counselor is working on building rapport with families and we will work on creating survey for families.

Project: 2

Associated Root Cause(s)

Culture and Climate - Build staff capacity for connection during formal and informal hours. Align the PBIS structure in a way that engages students and parents in supporting positive outcomes for learning.

Update provided by Paula Kavalec on Oct 13, 2021 02:41:54

Our schedule was crafted this year with consistent PLC's that are data driven and focused on students. There was also a mandatory collaboration time set for teacher to work with his/her teammate so that there is no subconscious isolation and connection on teams. We have had social events through our social committee such as catered lunches, Being BOOED and Ghosted and celebrating birthdays, but we would like to create more opportunities for staff social events after fall break.

Project 5.7.1

Aug 02, 2021 - May 31, 2023

On Track

Progress 67%

Update provided by Paula Kavalec on Oct 13, 2021 02:12:41

We have crafted a schedule that allows for consistent PLC's and teams are meeting one day a week to collaborate and plan with a teammate. We are also creating opportunities for staff to spend some social time with families outside of the regular school day.

SY 22/23- Ensure consistent time in schedule for team planning and PLC's during formal work time and staff team building during social hours outside of school.

Owner: Paula Kavalec

ME 4. Learning and Improvement

ME 5. Workforce

PE SP 1. Value All People

PE SP2. Sustain Enduring Trust

Checklist (Equal Weighting) : 2/3

- ~~Review schedule and ensure a team collaboration day is a set expectation~~
- ~~Schedule regular PLC's once a week~~
- Build in social time for staff once a quarter

Plan Details

Be diligent about staff workload and provide opportunities and resources for team connection. Provide choices for PLC's and time to connect and work with team during school day to maintain work life balance and reduce stress. Ensure that ESP and specialists are also provided time to connect and maybe time within the Zone with other specialists as well. Continue to provide meals, staff treats, and opportunities for team building outside of school for social connectedness and to maintain trust that is building.

Associated Root Cause(s)

3) Performance Momentum- There needs to be improvement in academic performance in special populations including SLD, SSN and CLDE students. As a school, we need to continue to capitalize on performance momentum by maintaining intervention structure

Update provided by Paula Kavalec on Oct 13, 2021 02:59:24

Our new SSN teacher has made great strides in restructuring the program and identifying areas of improvement. There is a greater team cohesion and excellent direction in instructional practices and adaptations for special populations. Progress monitoring tools and strategies have been strengthened and team collaboration has allowed the paraprofessionals to extend their own learning and be confident in their abilities. Both special education teachers, the GT teacher, the CLDE teacher and the interventionists are all receiving the same training as general education teachers in order to continue creating an inclusive environment for staff as well as students.

Project 5.10.1

Update provided by Paula Kavalec on Oct 13, 2021 03:11:35

Aug 02, 2021 - May 31, 2022

Completed

Progress 100%

√SSN teaching staff will consistently progress monitor student goals and adjust as needed when progress exceeds the goals

SY 22- SSN staff will collaborate and work with teachers on modifying curriculum and extending learning opportunities for all students.

Owner: Paula Kavalec

ME 2. Strategy

ME 4. Learning and Improvement

PE SP 1. Value All People

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 0/3

- SSN teaching staff will review curriculum with classroom teachers and modify content for SSN students
- SSN teaching staff will extend classroom learning into individual student plans to incorporate IEP goals
- SSN teaching staff will consistently progress monitor student goals and adjust as needed when progress exceeds the goals

Plan Details

SSN staff will engage in more collaborative opportunities to work/co-teach with teachers to ensure students in SSN are integrated into the general education classroom as successfully as possible. Also to allow for coaching opportunities with general education teachers on how to help include students in SSN.

Post COVID it will be essential to have team cohesion and understanding about students' needs, goals, behaviors, supports.

Data will be collected on a progress monitoring sheet in tandem with a service log. The case manager is responsible for creating and updating the forms as needed, and both the paraprofessionals and the case manager are responsible for filling them out (primarily paras). Case manager frequently checks to ensure data is being tracked. Data is formally shared with parents at the end of every quarter about how their child is doing towards their academic goals in the progress report.

Project 5.10.2

Aug 02, 2021 - May 31, 2023

Completed

Progress 100%

Update provided by Paula Kavalec on Oct 13, 2021 02:20:47

Special education teachers were trained in SIPPS interventions and have aligned their progress monitoring tools so that consistent, reliable and measurable progress is appropriately tracked for all special education students.

SY 22/23- Special Education teachers will participate in appropriate training in academic programs used with special education students and will ensure consistent growth in target areas for each student.

Owner: Paula Kavalec

ME 2. Strategy

ME 4. Learning and Improvement

PE SP 1. Value All People

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 2/3

- ~~Special Education staff will engage in professional learning for academic programming as needed and alongside general education teachers.~~
- ~~Special Education students will engage in academic programs similar to general education peers with modifications made by special education teacher~~
- Special education teachers will consistently progress monitor students according to appropriate IEP goals.

Plan Details

SLD teacher will ensure that behavior intervention training is sought out for paras and teacher.

SLD staff will train alongside general education staff in all appropriate program training so in class support is efficient and effective.

SLD students will show growth in all aspects of reading, writing and math in response to direct and explicit instruction from SLD teacher in SIPPS lessons, reading comprehension, writing conventions (particularly spelling and punctuation) and skill building lessons in math including number recognition, counting, regrouping, multiplication and division.

Data will be monitored and analyzed so that responsive interventions are effective.

Students will be supported in tracking data using data notebooks.

Project 5.10.3

Aug 02, 2021 - May 31, 2023

Completed

Progress 100%

SY 22/23- CLD students will receive consistent in class support and there will be stronger collaboration on instructional strategies that best support CLD students.

Owner: Paula Kavalec

ME 2. Strategy

ME 4. Learning and Improvement

PE SP 1. Value All People

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 0/3

- Review calendar and schedule with CLD teacher
- Research PD for staff on engaging CLD students and practical strategies in the classroom
- Assist CLD teacher with gaining some opportunities for co-teaching

Plan Details

CLD teacher will ensure stronger in class support & strategies for students.

CLD students will show greater growth in reading, writing and math as a result of targeted strategies.

CLD teacher will collaborate with general education teachers to ensure that there is a common understanding of how to utilize effective strategies with CLD students.

Progress will be monitored through STAR and DIBELs and students will be supported in tracking his/her data in data notebooks.

CLD will monitor student progress and adapt strategies in response to deficits in Listening, Speaking, Reading and Writing.

Update provided by Paula Kavalec on Oct 13, 2021 02:23:38

Our CLD teacher has been supported by our family liaison and we are hiring a CLD paraprofessional so that the caseload is manageable and CLD students are receiving consistent support. We have scheduled some professional development with the CLD coordinator who will be presenting on the learner profile of a CLD student to align with the Empower FZ learner profile ideas and to assist teachers in utilizing strategies that will support CLD students in learning.

Project 5.10.4

Update provided by Paula Kavalec on Oct 13, 2021 03:12:01

√Ensure that counselor is part of meeting GT student affective needs goals

Aug 02, 2021 - May 31, 2023

On Track

Progress 25%

SY 22/23- Students that are gifted and talented will continue with strong academic growth. There will be opportunities to present learning in a variety of ways and to engage in learning that is of high personal interest.

Owner: Paula Kavalec

ME 2. Strategy

ME 4. Learning and Improvement

PE SP 1. Value All People

PE SP 3. Engage Our Community

PE SP 4. Promote Educational Cho...

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 0/4

- Meet with GT Teacher and discuss learning plans for students
- Ensure that counselor is part of meeting GT student affective needs goals
- Attend the learning events hosted by GT students to preview the alternative methods of learning
- Review resources and provide access to high interest resources

Plan Details

The GT teacher will strive to find ways to ensure that GT students achieve a years worth of growth rather than just maintain on grade status.

The GT teacher will strive to identify students in underrepresented populations (CLD, SLD, twice exceptional etc).

The GT Teacher will maintain and track data through local systems and support students in using data notebooks.

the GT teacher will continue to create and modify rubrics that support students in tracking progress and goal setting and this is used for parent and teacher communication.

The GT teacher will strive to ensure that students take ownership and participate in establishing and maintaining affective goals in collaboration with the school counselor.

Action Plan 5.11

Progress 100%

During the 2022 & 2023 school year, the "of technology" of our school name brand will be redefined to include updated and interactive resources for students and staff.

Associated Root Cause(s)

Technology- The name of our school needs to be re-branded to define "of technology."

Update provided by Paula Kavalec on Oct 13, 2021 03:04:59

We are working on defining the "of technology" in our school name and are identifying ways that will help set us apart. We are setting aside funding for an interactive system for our gym to incorporate a variety of methods for team building and developing strong and healthy students. We are also working on a replenishment plan to replace outdated equipment with more cutting edge and updated technological components so that students can engage in learning in a variety of ways using modern technological tools.

Project 5.11.1

Aug 02, 2021 - May 31, 2023

Completed

Progress 100%

Update provided by Paula Kavalec on Oct 13, 2021 03:12:17

SY 22/23- Design a replenishment plan for replacing outdated technology and replacing with interactive and cutting edge components.

√Work with tech teacher to identify needs for upcoming year

√Research funding opportunities for tech resources

√Seek quotes for updated equipment and craft 5 year plan for replenishment

√Meet with vendors and seek out ideas for cutting edge technological tools to advance access for students

Owner: Paula Kavalec

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 0/4

- Work with tech teacher to identify needs for upcoming year
- Research funding opportunities for tech resources
- Seek quotes for updated equipment and craft 5 year plan for replenishment
- Meet with vendors and seek out ideas for cutting edge technological tools to advance access for students

Plan Details

Work on a replenishment plan with the technology coach to sustain current and future use of integrated technological devices and resources. Consider iPads, Smartboards, Projectors and Apple TV's for replacing with interactive panels and provide tech training.

Meridian Ranch Elementary School

	%	#
● On Track	57.14	8
● Completed	42.86	6

School Overview - Meridian Ranch Elementary School (MRES) is located in Eastern El Paso County in El Paso School District 49 inside the Falcon Zone. We are a public elementary school servicing students in grades K-5. Meridian Ranch has approximately 650 students that all receive core and differentiated instruction in Math, Reading, Writing, and Perspective courses (Gym, Music, Art, Technology, and Project Based Learning). MRES has a positive culture and puts kids first. The school has the highest level of military students in the district at above 36%. This has grown over the past six years. At this time, MRES is a performance school. Currently, MRES is rated Meets for academic achievement of all students in English Language Arts, Math, and Science. MRES's academic growth is rated Approaching in Math and Does Not Meet in English Language Arts

Meridian Ranch Elementary School is rated by the Colorado Department of Education as a "Performance" school as we are categorized as "meet" in both Academic Achievement and in Academic Growth on the School Performance Framework.

As part of our Unified Improvement Plan development, the Data Leadership Team (DLT) members have reviewed the previous year's school performance frameworks to begin the school improvement planning process. Staff participated in a data dig exploring test scores from assessments that include: CMAS scores from the last three years and DIBELS scores from the past 3 years. The team found trends in the disaggregated data in grades 3, 4, & 5 and amongst different subgroups.

Assessment Participation - We met the state assessment participation rate as more than 95% of our students participated in taking the 2019 CMAS assessments in ELA, Math, and Science.

Process and Stakeholder Involvement - The Meridian Ranch Elementary School shared leadership team (Team Leads) reviews current and trend data to determine major improvement targets. This group of professionals consists of General Education teachers from each grade level, a Special Education teacher, a Specials teacher, an Instructional Coach, Counselor, Dean, Assistant Principal and Principal. As a team, we meet to analyze data, identify needs and challenges, and isolate root causes. The shared leadership team shares the information with their grade level teammates during Professional Learning Community (PLC) meetings and communicate questions or concerns back to the shared leadership team. Our data is presented in multiple ways to identify curriculum and instructional needs, subgroup needs, trends, and possible root causes. Furthermore, MRES administration meets with the SAC to share results and collect specific input and provide feedback. Administration meets quarterly with the SAC to review our Improvement Plan, to analyze progress monitoring data, and to make adjustments to our action steps if necessary. The SAC reviewed the final improvement plan for the 2020-2021 and 2021-2022 school years on September 22, 2020.

Data Review and Identified Opportunities for Improvement - In ELA, Meridian Ranch Elementary School has demonstrated consistent growth and achievement on the CMAS test for the last three years this assessment was given. We have 'met' for all subgroups for both growth and achievement, with the exception of our students with disabilities (did not meet in achievement and approaching in growth). Our 2020-2021 local assessment data for ELA indicates similar progress and achievement. Our median student growth percentile in STAR 360 was 71.2. Additionally, our Acadience Reading scores indicated high percentages of students at benchmark or higher across all grade levels, including make above average progress in Kindergarten and 1st grades, and well above average progress in 2nd and 3rd grades. In Math, Meridian Ranch Elementary School met in both academic growth and achievement on the 2019 CMAS assessment overall, including an exceeding growth rating in free/reduced. Our 2020-2021 local assessment data for math indicates less attainment in progress and achievement.

STAR 360 data indicated a median student growth percentile of 71.9. On the 2019-2020 culture and climate survey, 92% of students indicated they feel safe at school, 97% of students indicated they have an adult they trust at school, and 95% of students shared that they have a friend who is different from them. Additionally, our percent of daily student attendance was 94% during the 2019-2020 school year. Based on our comprehensive needs assessment and data review, we have identified the following opportunities for improvement - students with disabilities need to demonstrate increased rates of growth,

all students need to continue to demonstrate high levels of proficiency/achievement utilizing personalized learning opportunities, and all students need to feel reconnected and safe at school (socially, emotionally, and physically) as we return following the pandemic.

Root Cause Identification and Verification - After careful analysis of a variety of data sources - SPF, CMAS, and local data sources (Acadience Reading, STAR 360 Reading and Math, culture and climate surveys, etc.) - we identified and verified the following root causes:

1. All staff members need to continue to develop the capacity to build relationships with students and create learner-centered cultures within all classrooms to support connectedness and social-emotional intelligence and health as we return following the pandemic. If we build positive relationships through safe and caring learning environments then student learning, achievement, and resilience will increase.
2. Increased focus on instructional practices and enhanced opportunities for rigorous, relevant, and relational learning is critical. If we create individualized, innovative pathways within flexible learning environments, then students will take ownership of and demonstrate their learning in a variety of ways.
3. Teachers and paraprofessionals continue to need training, resources, and assessment program analysis to effectively personalize learning for students and provide intervention to target learning loss and support student achievement. If we provide focused, systemic and ongoing professional learning to empower and grow staff members, then we will become facilitators of blended learning opportunities resulting in increased student competency.

These root causes were examined and verified by assessment data and perception data, with input from the building leadership team, and reviewed by the School Accountability Committee (SAC).

Owner: Sheehan Freeman-Todd

Action Plan: 3 Project: 14

Action Plan 6.1

Engaging Environments

Teachers demonstrate thoughtful design of circumstances, objects, space or conditions by which learners are surrounded that tend to inspire them to take ownership of how, when and where they learn; it's where learners come alive! Engaging Environments incorporate the Big Ideas of Learner Voice, Safe & Caring Environments, and Blended & Flexible Learning Spaces.

During the 2021-2022 and 2022-2023 school years, Meridian Ranch Elementary School teachers will complete full implementation of the Learner Centered Culture components, Modern Physical Learning Environment components, and Digital Learning Environment components within Modern Teacher to ensure that engaging environments enhance student learning. Administrators and the Instructional Coach will conduct classroom observation and feedback sessions to measure implementation of these components in every classroom.

For Learner Voice, teachers create conditions for learners to have input and provide meaningful feedback on the experiences in their classrooms. For Safe & Caring Environments, teachers ensure that learners feel physically, emotionally and educationally safe. For Blended & Flexible Learning Spaces, teachers create conditions that allow for a variety of environments (settings) and experiences for learners (physical & virtual).

Action Plan 6.3

Progress 43%

Elevated Instruction:

Teachers plan, implement, and assess learning experiences driven by the needs, capacities, and interests of the learner. Teachers act as facilitators to empower students to take ownership of their learning.

By May 2023, Meridian Ranch Elementary School students will engage in personalized learning using aligned learning plans with appropriate levels of rigor. The desired outcome is for every student to demonstrate personal growth that leads toward mastery of standards in all content areas and to see continuous growth in all content areas from students across all subgroups (SPED, GT, CLDE, Minority, F&R) through the implementation of personalized learning opportunities as indicated on local and state assessments (CMAS, STAR 360, Acadience Reading and Math, AIMSweb, WIDA, etc.).

Teachers will design learning experiences that are customized to meet the individual preferences and needs of each learner based on levels of understanding and comprehension and provide differentiated support and purposeful, authentic assessments so that learners become proficient and beyond by advancing on demonstrated mastery of content and skills.

Woodmen Hills Elementary School

	%	#
● Status Pending	62.5	5
● On Track	25.0	2
● Completed	12.5	1

School Overview - Woodmen Hills Elementary School is located in Eastern El Paso County in School District 49. We are a public elementary school serving approximately 625 students in grades PreK-5. At Woodmen Hills Elementary School, students are inspired to collaborate, learn, and grow through personalized learning opportunities that allow students to achieve mastery at individual paces, paths, and places. All students receive instruction in the core content areas of ELA, math, science, and social studies. Additionally, all students participate in Art, Music, PE, and PBL/technology classes.

Woodmen Hills Elementary School is rated by the Colorado Department of Education as a "Performance" school as we are categorized as "meet" in both Academic Achievement and in Academic Growth on the School Performance Framework.

Assessment Participation - We met the state assessment participation rate as more than 95% of our students participated in taking the 2019 CMAS assessments in ELA, Math, and Science.

Process and Stakeholder Involvement - The Woodmen Hills Elementary School shared leadership team (Team Leads) reviews current and trend data to determine major improvement targets. This group of professionals consists of General Education teachers from each grade level, a Special Education teacher, a Specials teacher, an Instructional Coach, Counselor, Dean, Assistant Principal and Principal. As a team, we meet to analyze data, identify needs and challenges, and isolate root causes. The shared leadership team shares the information with their grade level teammates during Professional Learning Community (PLC) meetings and communicate questions or concerns back to the shared leadership team. Our data is presented in multiple ways to identify curriculum and instructional needs, subgroup needs, trends, and possible root causes. Furthermore, WHES administration meets with the SAC to share results and collect specific input and provide feedback. Administration meets quarterly with the SAC to review our Improvement Plan, to analyze progress monitoring data, and to make adjustments to our action steps if necessary. The SAC reviewed the final improvement plan for the 2020-2021 and 2021-2022 school years on October 28, 2020.

Data Review and Identified Opportunities for Improvement - In ELA, Woodmen Hills Elementary School has demonstrated consistent growth and achievement on the CMAS test for the last three years this assessment was given. We have 'met' for all subgroups for both growth and achievement, with the exception of our students with disabilities (did not meet in achievement and approaching in growth). Our 2020-2021 local assessment data for ELA indicates similar progress and achievement. Our median student growth percentile in STAR 360 was 52.5. Additionally, our Acadience Reading scores indicated high percentages of students at benchmark or higher across all grade levels, including make above average progress in Kindergarten and 1st grades, and well above average progress in 2nd and 3rd grades. In Math, Woodmen Hills Elementary School met in both academic growth and achievement on the 2019 CMAS assessment overall, including an exceeding growth rating in free/reduced. Our 2020-2021 local assessment data for math indicates less attainment in progress and achievement.

STAR 360 data from 2020-2021 indicated a median student growth percentile of 45.5. In the fall of 2021-2022, beginning of year assessment data indicated 59% of students were at or above benchmark as measured by Acadience Reading Primary Literacy composite score across grade levels K-3. On the 2019-2020 culture and climate survey, only 77% of students indicated they feel safe at school, 91% of students indicated they have an adult they trust at school, and 95% of students shared that they have a friend who is different from them. Additionally, our percent of daily student attendance was 94% during the 2019-2020 school year. Based on our comprehensive needs assessment and data review, we have identified the following opportunities for improvement - students with disabilities need to demonstrate increased rates of growth, all students need to continue to demonstrate high levels of proficiency/ achievement utilizing personalized learning opportunities, and all students need to feel reconnected and safe at school (socially, emotionally, and physically) as we return following the pandemic.

Root Cause Identification and Verification - After careful analysis of a variety of data sources - SPF, CMAS, and local data sources (Acadience Reading, STAR 360 Reading and Math, culture and climate surveys, etc.) - we identified and verified the following root causes:

1. All staff members need to continue to develop the capacity to build relationships with students and create learner-centered cultures within all classrooms to support connectedness and social-emotional intelligence and health as we return following the pandemic. If we build positive relationships through safe and caring learning environments then student learning, achievement, and resilience will increase.

2. Increased focus on instructional practices and enhanced opportunities for rigorous, relevant, and relational learning is critical. If we create individualized, innovative pathways within flexible learning environments, then students will take ownership of and demonstrate their learning in a variety of ways.

3. Teachers and paraprofessionals continue to need training, resources, and assessment program analysis to effectively personalize learning for students and provide intervention to target learning loss and support student achievement. If we provide focused, systemic and ongoing professional learning to empower and grow staff members, then we will become facilitators of blended learning opportunities resulting in increased student competency.

These root causes were examined and verified by assessment data and perception data, with input from the building leadership team, and reviewed by the School Accountability Committee (SAC).

By May 2023, Woodmen Hills Elementary School students will engage in personalized learning using aligned learning plans with appropriate levels of rigor. The desired outcome is for every student to demonstrate personal growth that leads toward mastery of standards in all content areas and to see continuous growth in all content areas from students across all subgroups (SPED, GT, CLDE, Minority, F&R) through the implementation of personalized learning opportunities as indicated on local and state assessments (CMAS, STAR 360, Acadience Reading and Math, AIMSweb, WIDA, etc.).

Teachers will design learning experiences that are customized to meet the individual preferences and needs of each learner based on levels of understanding and comprehension and provide differentiated support and purposeful, authentic assessments so that learners become proficient and beyond by advancing on demonstrated mastery of content and skills.

Project 7.3.1

Update provided by Bethany Stegman on Sep 01, 2021 18:04:50

Aug 03, 2020 - Sep 17, 2021

Completed

Progress 100%

100% of staff complete this module by May 2021.

SY21 & SY22 All teachers will complete the Modern Teacher module, including literacy and fluency tiles: Architect a Modern Curriculum (Overview) to support learning plan development with appropriate levels of rigor.

Owner: Bethany Stegman

ME 2. Strategy

ME 4. Learning and Improvement

PE SP 5. Build Firm Foundations

Checklist (No Weighting) : 2/2

- Literacy Tiles
- Fluency Tiles

Plan Details

Professional learning opportunities will be provided in self-paced, playlist and learning plan formats allowing for educator choice, voice, and needs-based learning engagements. We will rely on expertise of Zone and building shared leadership opportunities to elevate instruction.

Project 7.3.2

Jul 28, 2021 - Dec 17, 2021

On Track

Progress 100%

SY 22 All teachers will complete the Modern Teacher module, including literacy and fluency tiles: Architect a Rigorous Learning Experience.

Owner: Bethany Stegman

ME 4. Learning and Improvement

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 2/2

- ~~Literacy Tiles complete for Architect a Rigorous Learning Experience for all certified teachers~~
- ~~Fluency Tiles complete for Architect a Rigorous Learning Experience for all certified teachers~~

Update provided by Bethany Stegman on Oct 16, 2021 13:45:59

Changes in checklist result in an update in status and/or progress

Previous

- Literacy Tiles complete for Architect a Rigorous Learning Experience for all certified teachers
- Fluency Tiles complete for Architect a Rigorous Learning Experience for all certified teachers

Updated

- Literacy Tiles complete for Architect a Rigorous Learning Experience for all certified teachers
- Fluency Tiles complete for Architect a Rigorous Learning Experience for all certified teachers

Project 7.3.3

Aug 02, 2021 - May 26, 2023

Status Pending

Progress 50%

SY22 & SY23 Students will engage in personalized learning opportunities utilizing learning plans linked to their abilities, needs, and interests, including all content areas and WIN (What I Need) time geared towards targeted interventions in ELA and Math.

Owner: Bethany Stegman

ME 4. Learning and Improvement

PE SP 4. Promote Educational Cho...

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 1/2

- Learning plans are visible in all classrooms.
- ~~WIN time across all grade levels allows for personalized learning opportunities in ELA and Math.~~

Project 7.3.4

Jul 28, 2021 - May 26, 2023

Status Pending

Progress 50%

SY22 & SY23 All teachers will receive further and ongoing training in Star 360 Reading and Math assessments to better analyze student measurement data and align instruction according to student levels of performance and achievement.

Utilizing all assessment program reports to their full capacity will support gaining a better understanding of what is being measured, what students know, and what students need to know. Collaborative work during PLCs focused on data will support alignment of instruction, too.

Owner: Bethany Stegman

ME 4. Learning and Improvement

PE SP 5. Build Firm Foundations

PE SP 6. Launch Successful Students

Checklist (Equal Weighting) : 1/2

- Enhance PLC meeting schedules in the 21-22 school year to include 2 data-driven PLCs per month at all grade levels.
- Ongoing Star 360 training offered and attained by staff in reading and/or math (depending on content areas/grade levels taught).
