## District Performance Framework 2013

Level: EMH

Safety ${ }^{4} \quad$ Meets Requirements
${ }^{4}$ Districts do not receive points for finance and safety assurances. However, districts that do not meet requirements in at least one area default to Accredited with Priority Improvement (or remain Accredited with Turnaround Plan) until they meet requirements.

Counts and ratings are not reported for metrics when the district does not meet the minimum student counts required for reportable data.

## Graduation and Disaggregated Graduation Rates

The District Performance Framework reports use the 4-, 5-, 6-and 7-year graduation rates for the district and disaggregated student groups (students eligible for free/reduced lunch, minority students, students with disabilities and English learners).

Colorado calculates "on-time" graduation as the percent of students who graduate from high school four years after entering ninth grade. A student is assigned a graduating class when they enter ninth grade by adding four years to the year the student enters ninth grade. The formula anticipates, for example, that a student who entered ninth grade in fall 2006 would graduate with the Class of 2010.
For the 1 -year DPF, districts earn points based on the highest value among the following: 2012 4 - year graduation rate, 20115 -year graduation rate, 2010 6-year graduation rate and 2009 7year graduation rate (the shaded cells in the tables on the left). For the 3 -year DPF, districts earn points based on the highest value among the following: aggregated 2009, 2010, 2011 and 2012 4-year graduation rate, aggregated 2009, 2010 and 20115 -year graduation rate, aggregated 2009 and 20106 -year graduation rate, or 20097 -year graduation rate. For each of these rates, the aggregation is the result of adding the graduation totals for all available years and dividing by the sum of the graduation bases across all available years. For both 1 -year and 3 -year DPFs, the "best of" graduation rate is bolded and italicized here and on the Performance Indicators detail page.

## Cut-Points for Accreditation Category Assignment

| Cut Point: The district earned ... of the total Framework points eligible. |  |
| :--- | :---: |
| • at or above 80\% | Distinction |
| • at or above 64\% - below 80\% | Accredited |
| • at or above $52 \%$ - below 64\% | Improvement |
| • at or above 42\% - below 52\% | Priority Improvement |
| • below 42\% | Turnaround |

A district may not be accredited with a Priority Improvement and/or Turnaround Plan for longer than a combined total of five consecutive years before the State Board of Education is required to restructure or close the district. The five consecutive school years commences on July 1 during the summer immediately following the fall in which the district is notified that it is Accredited with a Priority Improvement or Turnaround Plan.

## Reference

1 -year vs. 3-year Report
Districts receive a 1-year and a 3-year aggregated District Performance Framework report. CDE produces a report on the basis of three years of data to enable more districts to be considered within the same performance framework. Some small districts may not have public data on the basis of a single year because of small N counts for some performance indicator metrics, but a report on the basis of three years of data increases the $N$ count. Only one of the two sets of results (1-year or 3-year) will be the official accreditation category for the district: the one under which the district has ratings on a greater number of the performance indicators, or, if it has ratings for an equal number of indicators, the one under which it earned a higher total percent of points. Note that some 3 -year reports may be based on only two years of data if that is the only data available.

## Reference Data for Key Performance Indicators

## Academic Achievement

e Academic Achievement Indicator reflects a district's proficiency rate: the percentage of students proficient or advanced on Colorado's standardized assessments. This includes results from CSAP/TCAP and CSAPA/CoAlt in reading, mathematics, writing, and science, and results from Lectura and Escritura.

Percent of Students Proficient or Advanced by Percentile Cut-Points - 1-year (2009-10 baseline)

Data for all indicators are compared to baselines from the first year the performance framework reports were released.

## Academic Growth and Academic Growth Gaps

The Academic Growth Indicator measures academic progress using the Colorado Growth Model. This indicator reflects 1) normative (median) growth: how the academic progress of the students in this district compared to that of other students statewide with a similar content proficiency (CSAP/TCAP) score history or a similar English language proficiency (ACCESS) score history, and 2) criterion referenced (adequate) growth: whether this level of growth was sufficient for the typical (median) student in the district to reach or maintain a specified level of proficiency within a given length of time. For CSAP/TCAP, students are expected to score proficient or advanced within three years or by 10th grade, whichever comes first. The median growth percentile required to earn each rating depends on whether or not the district met adequate growth (AGP). For 2012-13, Adequate Growth cannot be calculated for English language proficiency therefore English language proficiency growth is determined only by the median growth percentile.

|  | Made AGP | Did Not Make <br> AGP | No AGP |
| :---: | :---: | :---: | :---: |
| Exceeds | $60-99$ | $70-99$ | $65-99$ |
| Meets | $45-59$ | $55-69$ | $50-64$ |
| Approaching | $30-44$ | $40-54$ | $35-49$ |
| Does Not Meet | $1-29$ | $1-39$ | $1-34$ |

The Academic Growth Gaps Indicator disaggregates the results of the Academic Growth Indicator, measuring the academic progress of historically disadvantaged student groups (students eligible for free/reduced lunch, minority students, students with disabilities, English learners) and students needing to catch up.

## Postsecondary and Workforce Readiness

The Postsecondary and Workforce Readiness Indicator measures the preparedness of students for college or careers upon completing high school. This indicator reflects student graduation rates, disaggregated graduation rates, dropout rates, and mean Colorado ACT (COACT) composite scores.

State Mean Dropout Rate (2009-10 baseline)

|  | N of Students | Mean Rate |
| :---: | :---: | :---: |
| 1-year (2009) | 416,953 | 3.6 |
| 3-year (2007-09) | $1,238,096$ | 3.9 |

State Mean COACT Composite Score (2009-10 baseline)

|  | N of Students | Mean Score |
| :---: | :---: | :---: |
| 1-year (2010) | 51,438 | 20.0 |
| 3-year (2008-10) | 151,439 | 20.1 |
