LEP Budget Narrative

Instructions: Provide a brief description (no more than 700 words) that addresses each of the questions below. These questions must be completed for any LEP receiving READ Act funds before funds are released.

Implementing Allowable Activities

Explain how your LEP plans to implement each selected allowable activity. Please ensure that each allowable activity listed aligns with the allowable use(s) of funds as required by statute and matches the allowable use(s) listed in your LEP budget explanation.

Kindergarten through third grade students who have SRD have not had a summer literacy program in years. The program will be delivered late July to qualifying students.

Teachers if Huerfano school district are severely lacking in good quality professional development around the science of reading. The district will continue to foster the growth of kindergarten through third grade literacy instruction. Huerfano school district is in the need of a intervention program that supports the science of reading. Kindergarten through third grade teachers do not have a program to use within this classroom, The intervention program that we are purchasing will be 95% Group.

Outcomes and Goals

What are your LEP's expected outcomes and goals in the upcoming budget year from implementing your selected allowable activity(ies)?

The expectation is a growth in fundamental reading skill for students who are struggling with in the district. During the summer literacy program, students will be in smaller groups allowing for very targeted instruction for needed fundamental skills. Teachers will also gain knowledge of the science of reading and how to deliver effective literacy instruction. With guided professional development, effective intervention program, and support, teacher will develop the skills to be masterful literacy instructors.

Potential Barriers

What are potential barriers in reaching your expected outcomes and goals? How do you plan to address and/or overcome these barriers?

The greatest potential barrier is the regulations of social gatherings due to COVID-19. Our plan is to follow regulations and still allow in person instruction with all safety protocols in place. Another barrier would be the teacher turnover rate. Although the turnover rate is the lowest it has been, it is a natural barrier within our district. We continue to support the needs and growth of teachers within our district. At times, the price of quality professional development can be a barrier, although with a partnership with BOCES are able to join forces with other rural school districts.
