# LEP Budget Narrative

**Instructions:** Provide a brief description (no more than 700 words) that addresses each of the questions below. These questions must be completed for any LEP receiving READ Act funds before funds are released.

## Implementing Allowable Activities

**Explain how your LEP plans to implement each selected allowable activity. Please ensure that each allowable activity listed aligns with the allowable use(s) of funds as required by statute and matches the allowable use(s) listed in your LEP budget explanation.**

READ Act funds will be used to provide other targeted, evidence-based or scientifically based intervention services to students who are receiving instructional services, which services are approved by the department.

The District uses these funds to support our interventions for students by paying for retired teachers (who are highly qualified in reading) and/or pay for a portion of an interventionist to come in during the day to provide additional intensive, small group targeted interventions based on data. We use the Lexia Core program (which the District purchased) with our interventions to assess, progress monitor and target instruction. All staff currently have been trained in Orton-Gillingham based reading strategies as well as Lexia.

Each building will receive \$20,000 to pay for retired teachers and/or part of an interventionist to provide intensive, targeted interventions to identified students. The District recognizes the additional training requirements for all primary teachers beginning in 2021-22 and is planning to provide training opportunities to our staff through local funds once those training opportunities become more clear.

## Outcomes and Goals

**What are your LEP's expected outcomes and goals in the upcoming budget year from implementing your selected allowable activity(ies)?**

We expect all of our students to make significant gains in reading throughout the year, with all students making progress toward benchmark literacy goals.

## Potential Barriers

**What are potential barriers in reaching your expected outcomes and goals? How do you plan to address and/or overcome these barriers?**

Potential barriers right now are the restrictions due to COVID-19. While we have continued instruction for all of our students virtually through virtual direct instruction from classroom teachers and interventionists as well as software programs, some of our students still struggle in the remote learning environment. Best plan to overcome barriers....a vaccine or treatment for COVID so families, students and staff all feel comfortable back at school.
