Implementing Allowable Activities

Explain how your LEP plans to implement each selected allowable activity. Please ensure that each allowable activity listed aligns with the allowable use(s) of funds as required by statute and matches the allowable use(s) listed in your LEP budget explanation. If applicable, please include list of programming being used.

Intervention teachers will be paid for a portion of their salaries to be used as instructional coaches in each building. During their time as coaches, they will be meeting with teachers to provide them with instructional strategies to meet the needs of students on READ plans. They will help them with planning for small group reading and for creating modifications or accommodations for students on READ plans. They will also provide teachers with help to write the READ plans, making them living documents and not just compliance documents. They will be helping teachers to hold themselves accountable to the strategies they write into READ plans and will be helping teachers to stick to progress monitoring schedules, knowing what kinds of changes to instruction should be made, according to the progress monitoring scores. To provide evidence of research based and data driven accountability, we will encourage the interventionists to go to the teachers trainings from Amplify and then to use some of their coaching time with each teacher to go through their data and to help teachers make decisions on grouping and instruction based on that data. We will be using Acadience Reading and AMPLIFY training, along with Sonday, which is OGI based and again scientifically proven. Intervention teachers will be trained using scientifically and evidenced based reading programs and will use their knowledge from those programs to coach teachers and ensure best first instruction is taking place in all classrooms. These strategies (programs not on advisory list) will be used in the coaching role
