## School Performance Framework 2010

Level: High School
School: PONDEROSA HIGH SCHOOL - 7118
District: DOUGLAS COUNTY RE 1-0900 (1 Year***)

## Performance Plan

Performance Indicators Rating/Plan \% of Points Earned out of Points Eligible*

This is the plan type the school is required to adopt and implement. Schools are assigned a plan based on their overall framework score, which is a percentage of the total points they earned out of the total points eligible in each performance indicator. The overall score is then matched to the scoring guide below to determine the plan type.

| Plan Assignment | Framework Points Earned |
| :--- | ---: |
| Performance | at or above $60 \%$ |
| Improvement | at or above $47 \%$ - below $60 \%$ |
| Priority Improvement at or above $33 \%$ - below $47 \%$ |  |

Turnaround below $33 \%$

Framework points are calculated using the percentage of points earned out of points eligible. For schools with data on all indicators, the total points possible are: 15 points for Academic Achievement, 35 for Academic Growth, 15 for Academic Growth Gaps, and 35 for Postsecondary and Workforce Readiness.

## What do the performance indicators measure?

## Academic Achievement

The Achievement Indicator reflects how a school's students are doing at meeting the state's proficiency goal: the percentage of students proficient or advanced on Colorado's standardized assessments. This Indicator includes results from CSAP and CSAPA (Reading, Writing, Math and Science), and Lectura and Escritura.

## Academic Growth

The Growth Indicator measures academic progress using the Colorado Growth Model. This Indicator reflects 1) normative growth: how the academic progress of the students in this school compared to that of other students statewide with a similar CSAP score history in that subject area, and 2) adequate growth: whether this level of growth was sufficient for the typical (median) student in this school to reach an achievement level of proficient or advanced on the CSAP within three years or by 10th grade, whichever comes first.

## Academic Growth Gaps

The Gaps Indicator measures the academic progress of historically disadvantaged student subgroups and students needing to catch up. It disaggregates the Growth Indicator into student subgroups, and reflects their normative and adequate growth. The subgroups include students eligible for Free/Reduced Lunch, minority students, students with disabilities (IEP status), English Language Learners, and students needing to catch up.

## Postsecondary and Workforce Readiness

The Postsecondary and Workforce Readiness Indicator measures the preparedness of students for college or jobs upon completing high school. This Indicator reflects student graduation rates, dropout rates, and average Colorado ACT composite scores.

| Performance Indicators |  |  |  |  |  |  | Level: High School |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| School: PONDEROSA HIGH SCHOOL - 7118 |  |  |  |  |  |  |  | (1 Year***) |
| Academic Achievement | Points Earned | Points Eligible | \% Points | Rating | $N$ | \% Proficient/Advanced | School's Percentile |  |
| Reading | 3 | 4 |  | Meets | 626 | 79.1\% | 70 |  |

| 1-year (2010) | 51,438 | 20.0 |
| 3-year (2008-10) | 151,439 | 20.1 |

## 1-year vs. 3-year report

Schools receive a 1-year and a 3-year aggregated School Performance Framework report. CDE produces a report on the basis of three years of data to enable more schools to be consideredwithin the same performance framework. Some small schools may not have public data on the basis of a single year because of small N counts for some performance indicator metrics, but a report on the basis of three years of data increases the $N$ count.

Only one of the two sets of results (1-year or 3-year) is the one that will be the official plan type assignment for the school: the one under which the school has ratings on a higher number of the performance indicators, or, if it has ratings for an equal number of indicators, the one under which it received a higher total number of points. Note that some 3 -year reports may be based on only two years of data if that is the only data available. The years of data included in a report are indicated on page 1.
