School Performance Framework 2010

School: HAXTUN HIGH SCHOOL - 3850

Performance Plan

This is the plan type the school is required to a and implement. Schools are assigned a plan b on their overall framework score, which percentage of the total points they earned of the total points eligible in each perform indicator. The overall score is then matched to scoring guide below to determine the plan type

Plan Assignment	Framework Points Earned	
Performance	at or above 60%	A
Improvement	at or above 47% - below 60%	
Priority Improvement	at or above 33% - below 47%	_
Turnaround	below 33%	P

Framework points are calculated using percentage of points earned out of points elig For schools with data on all indicators, the points possible are: 15 points for Acad Achievement, 35 for Academic Growth, 15 Academic Growth Gaps, and 35 for Postsecor and Workforce Readiness.

Rating/Plan	% of Points	Earned out of Points Eligible*	
Approaching	56.3%	(8.4 out of 15 points)	
Meets	66.7%	(23.3 out of 35 points)	
Meets	66.7%	(10 out of 15 points)	
Meets	75.0%	(26.3 out of 35 points)	
95% Participation Rate Met

points indicate.

What do the performance indicators measure?

Academic Achievement

The Achievement Indicator reflects how a school's students are doing at meeting the state's proficiency goal: the percentage of students proficient or advanced on Colorado's standardized assessments. This Indicator includes results from CSAP and CSAPA (Reading, Writing, Math and Science), and Lectura and Escritura.

Academic Growth

The Growth Indicator measures academic progress using the Colorado Growth Model. This Indicator reflects 1) normative growth: how the academic progress of the students in this school compared to that of other students statewide with a similar CSAP score history in that dropout rates, and average Colorado ACT composite scores. subject area, and 2) adequate growth: whether this level of growth was sufficient for the typical (median) student in this school to reach an achievement level of proficient or advanced on the CSAP within three years or by 10th grade, whichever comes first.

Academic Growth Gaps

The Gaps Indicator measures the academic progress of historically disadvantaged student subgroups and students needing to catch up. It disaggregates the Growth Indicator into student subgroups, and reflects their normative and adequate growth. The subgroups include students eligible for Free/Reduced Lunch, minority students, students with disabilities (IEP status), English Language Learners, and students needing to catch up.

Postsecondary and Workforce Readiness

The Postsecondary and Workforce Readiness Indicator measures the preparedness of students for college or jobs upon completing high school. This Indicator reflects student graduation rates,

Science

1-year vs. 3-year report

Schools receive a 1-year and a 3-year aggregated School Performance Framework report. CDE produces a report on the basis of three years of data to enable more schools to be considered within the same performance framework. Some small schools may not have public data on the basis of a single year because of small N counts for some performance indicator metrics, but a report on the basis of three years of data increases the N count.

Only one of the two sets of results (1-year or 3-year) is the one that will be the official plan type assignment for the school: the one under which the school has ratings on a higher number of the performance indicators, or, if it has ratings for an equal number of indicators, the one under which it received a higher total number of points. Note that some 3-year reports may be based on only two years of data if that is the only data available. The years of data included in a report are indicated on page 1.
