## School Performance Framework 2011

# Level: Middle School

School: MANN MIDDLE SCHOOL - 4090

District: COLORADO SPRINGS 11 - 1010 (1 Year\*\*\*)

Improvement Plan	Performance Indicators	Rating	% of Points	s Earned out of Points Eligible*	
This is the plan type the school is required to add and implement. Schools are assigned a plan bas on their overall framework score, which is	ed Academic Achievement	Approaching	56.3%	( 14.1 out of 25 points )	
percentage of the total points they earned out the total points eligible in each performar indicator. The overall score is then matched to t scoring guide below to determine the plan type.	ice	Approaching	41.7%	( 20.9 out of 50 points )	
Plan AssignmentFramework Points EarnPerformanceat or above 5	9% Academic Growth Gaps	Does Not Meet	36.7%	(9.2 out of 25 points)	
Improvementat or above 47% - below 5Priority Improvementat or above 37% - below 4		95% Participation Rate Met			
Turnaroundbelow 3Framework points are calculated using the percentage of points earned out of points eligible	he TOTAL		44.2%	( 44.2 out of 100 points )	
For schools with data on all indicators, the to points possible are: 25 points for Acader Achievement, 50 for Academic Growth, and 25	nic scores are not negatively impacted. ** Schools do not receive points for	r test participation. However, schools are a	ssigned one plan	category lower than their points indicate if the	moved from both the points earned and the points eligible, so hey do not (1) meet at least a 95% participation rate in all or all bu

one subject (reading, writing, math, science, and COACT), or (2) for schools serving multiple grade levels, meet at least a 95% participation rate in all or all but one subject area when individual subject rates are rolled up across grade levels AND the school makes AYP participation (in reading and math) for each grade level overall (not including disaggregated groups).

## What do the performance indicators measure?

#### Academic Achievement

Academic Growth Gaps.

The Achievement Indicator reflects how a school's students are doing at meeting the state's proficiency goal: the percentage of students proficient or advanced on Colorado's standardized assessments. This Indicator includes results from CSAP and CSAPA (Reading, Writing, Math and Science), and Lectura and Escritura.

#### Academic Growth

The Growth Indicator measures academic progress using the Colorado Growth Model. This Indicator reflects 1) median growth: how the academic progress of the students in this school compared to that of other students statewide with a similar CSAP score history in that subject area, and 2) adequate growth: whether this level of growth was sufficient for the typical (median) student in this school to reach an achievement level of proficient or advanced on the CSAP within three years or by 10th grade, whichever comes first.

## Academic Growth Gaps

The Gaps Indicator measures the academic progress of historically disadvantaged student subgroups and students needing to catch up. It disaggregates the Growth Indicator into student subgroups, and reflects their median and adequate growth. The subgroups include students eligible for Free/Reduced Lunch, minority students, students with disabilities (IEP status), English Language Learners, and students needing to catch up.

All achievement data is compared to baselines from the first year the performance framework reports were released (2009-10 for 1-year reports and 2008-10 for 3-year reports).

For Academic Growth and Academic Growth Gaps, the median growth percentile required to earn each rating depends on whether or not the school met adequate growth. Schools that met adequate growth use the rubric on the left; schools that did not meet adequate growth use the rubric on the right.

# 1-year vs. 3-year report

Schools receive a 1-year and a 3-year aggregated School Performance Framework report. CDE produces a report on the basis of three years of data to enable more schools to be considered within the same performance framework. Some small schools may not have public data on the basis of a single year because of insufficient student counts for some performance indicator metrics, but a report on the basis of three years of data increases the student count.

Only one of the two sets of results (1-year or 3-year) is the one that will be the official plan type assignment for the school: the one under which the school has ratings on a higher number of the performance indicators, or, if it has ratings for an equal number of indicators, the one under which it received a higher total number of points. Note that some 3-year reports may be based on only two years of data if that is the only data available. The years of data included in a report are indicated on page 1. For both 1-year and 3-year SPFs, the "best of" graduation rate is bolded and italicized on the Performance Indicators detail page.
