School Performance Framework 2012

School: DESERT SAGE ELEMENTARY SCHOOL - 0026

District: PUEBLO COUNTY 70 - 2700 (3 Year¹)

Level: E

-	r -		
Per	nrm	าวท	6
		Ian	

This is the plan type the school is required to adopt and implement. Schools are assigned a plan based on their overall framework score, which is a percentage of the total points they earned out of the total points eligible in each performance indicator. The overall score is then matched to the score ranges below to determine the plan type.

Plan Assignment	Framework Points Earned	lest Par
Performance	at or above 59%	
Improvement	at or above 47% - below 59%	TOTAL
Priority Improvement	at or above 37% - below 47%	
Turnaround	below 37%	² Schools r

Performance Indicators	Rating/Plan	% of Points	Earned out of Points Eligible ²	
Academic Achievement	Meets	68.8%	(17.2 out of 25 points)	
Academic Growth	Approaching	60.7%	(30.4 out of 50 points)	
Academic Growth Gaps	Approaching	41.7%	(10.4 out of 25 points)	
Test Participation ³	Meets 95% Participation Rate			
TOTAL		58.0%	(58.0 out of 100 points)	

Schools may not be eligible for all possible points on an indicator due to insufficient numbers of students. In these cases, the points are removed from both the points earned and the points eligible, so scores are not negatively impacted.

Framework points are calculated using the percentage ³Schools do not receive points for test participation. However, schools are assigned one plan category lower than their points indicate if they do not (1) of points earned out of points eligible. For schools with meet at least a 95% participation rate in all or all but one content area (reading, writing, math, science and COACT), or (2) for schools serving multiple data on all indicators, the total points possible are: 25 levels (elementary, middle and high school grades, e.g., a 6-12 school), meet at least a 95% participation rate in all or all but one content area when points for Academic Achievement, 50 for Academic individual content area rates are rolled up across school levels (elementary, middle and high school grades).

Test Participation Rates

Growth, and 25 for Academic Growth Gaps.

Turnaround Plan

The school is required to adopt and implement a Turnaround Plan.

school is notified that it is required to implement a Priority Improvement or Turnaround Plan.

Reference

1-year vs. 3-year Report

Schools receive a 1-year and a 3-year aggregated School Performance Framework report. CDE produces a report on the basis of three years of data to enable more schools to be considered within the same performance framework. Some small schools may not have public data on the basis of a single year because of small N counts for some performance indicator metrics, but a report on the basis of three years of data increases the N count. Only one of the two sets of results (1-year or 3-year) will be the official plan type assignment for the school: the one under which the school has ratings on a higher number of the performance indicators, or, if it has ratings for an equal number of indicators, the one under which it received a higher total number of points and plan assignment. Note that some 3-year reports may be based on only two years of data if that is the only data available.

Academic Growth and Academic Growth Gaps

The Academic Growth Indicator measures academic progress using the Colorado Growth Model. This Indicator reflects 1) normative (median) growth: how the academic progress of the students in this school compared to that of other students statewide with a similar content proficiency (CSAP/TCAP) score history or a similar English language proficiency (CELApro) score history, and 2) criterion-referenced (adequate) growth: whether this level of growth was sufficient for the typical (median) student in the school to reach or maintain a specified level of proficiency within a given length of time. For CSAP/TCAP, students are expected to score proficient or advanced within three years or by 10th grade, whichever comes first. Students classified as English learners are expected to reach the next level of language proficiency on CELApro in either 1 or 2 years, depending upon the proficiency target.

72.05

88.21

50th percentile

90th percentile

The Academic Growth Gaps Indicator measures the academic progress of historically disadvantaged student groups and students needing to catch up. It disaggregates the Growth Indicator into student groups, and reflects their normative and adequate growth. The student groups include students eligible for free/reduced lunch, minority students, students with disabilities, English learners, and students needing to catch up.

For Academic Growth and Academic Growth Gaps, the median growth percentile required to earn each rating depends on whether or not the school met adequate growth. Schools that met adequate growth use the rubric on the left; schools that did not meet adequate growth use the rubric on the right.
