<div>This is the plan type the school is required to adopt and implement, based on the 3 Year School Performance Framework. Schools are assigned a plan type based on the overall percent of points earned for the official year. The official percent of points earned is matched to the scoring guide below to determine the plan type. Additionally, failing to meet test administration and/or test participation assurances will result in a lower plan type category.</div> <div><div>Plan Assignment</div><div>Framework Points Earned</div></div> <div>Performance<div>at or above 59%</div></div> <div>Improvement<div>at or above 47% - below 59%</div></div> <div>Priority Improvement<div>at or above 37% - below 47%</div></div> <div>Turnaround<div>below 37%</div></div> <div>Framework points are calculated using the percentage of points earned out of points eligible. For schools with data on all indicators, the total points possible are: 25 points for Academic Achievement, 50 for Academic Growth, and 25 for Academic Growth Gaps.</div>		Academic Achievement	Exceeds	100.0%	(25.0 out of 25 points)
		Academic Growth	Exceeds	91.7%	(45.9 out of 50 points)
		Academic Growth Gaps	-	-	(0.0 out of 0 points)
		Test Participation ³	Meets 95% Participation Rate		
TOTAL				94.5%	(70.9 out of 75 points)

²Schools may not be eligible for all possible points on an indicator due to insufficient numbers of students. In these cases, the points are removed from the points eligible, so scores are not negatively impacted.

³Schools do not receive points for test participation. However, schools are assigned one plan type category lower than their points indicate if they do not (1) meet at least a 95% participation rate in all or all but one content area (reading, writing, math, science and COACT), or (2) for schools serving multiple levels (elementary, middle and high school grades, e.g., a 6-12 school), meet at least a 95% participation rate in all or all but one content area when individual content area rates are rolled up across school levels (elementary, middle and high school grades).

School Plan Type Assignments

	Plan description	
Performance Plan	The school is required to adopt and implement a Performance Plan.	
Improvement Plan	The school is required to adopt and implement an Improvement Plan.	
Priority Improvement Plan	The school is required to adopt and implement a Priority Improvement Plan.	
Turnaround Plan	The school is required to adopt and implement a Turnaround Plan.	

A school may not implement a Priority Improvement and/or Turnaround Plan for longer than a combined total of five consecutive years before the District or Institute is required to restructure or close the school. The five consecutive school years commences on July 1 during the summer immediately following the fall in which the school is notified that it is required to implement a Priority Improvement or Turnaround Plan.

Reference

1-year vs. 3-year Report

Schools receive a 1-year and a 3-year aggregated School Performance Framework report. CDE produces a report on the basis of three years of data to enable more schools to be considered within the same performance framework. Some small schools may not have public data on the basis of a single year because of small N counts for some performance indicator metrics, but a report on the basis of three years of data increases the N count. Only one of the two sets of results (1-year or 3-year) will be the official plan type category for the school: the one under which the school has ratings on a greater number of the performance indicators, or, if it has ratings for an equal number of indicators, the one under which it earned a higher total percent of points. Note that some 3-year reports may be based on only two years of data if that is the only data available.

Reference Data for Key Performance Indicators

Academic Achievement

The Academic Achievement Indicator reflects a school's proficiency rate: the percentage of students proficient or advanced on Colorado's standardized assessments. This includes results from CSAP/TCAP and CSAPA/CoAlt in reading, mathematics, writing, and science, and results from Lectura and Escritura.

Data for all indicators are compared to baselines from the first year the performance framework reports were released.

Academic Growth and Academic Growth Gaps				Postsecondary and Workforce Readiness																																								
<p>The Academic Growth Indicator measures academic progress using the Colorado Growth Model. This indicator reflects 1) normative (median) growth: how the academic progress of the students in this school compared to that of other students statewide with a similar content proficiency (CSAP/TCAP) score history or a similar English language proficiency (ACCESS) score history, and 2) criterion referenced (adequate) growth: whether this level of growth was sufficient for the typical (median) student in the school to reach or maintain a specified level of proficiency within a given length of time. For CSAP/TCAP, students are expected to score proficient or advanced within three years or by 10th grade, whichever comes first. The median growth percentile required to earn each rating depends on whether or not the school met adequate growth (AGP). For 2012-13, Adequate Growth cannot be calculated for English language proficiency therefore English language proficiency growth is determined only by the median growth percentile.</p> <table><tr><th></th><th>Made AGP</th><th>Did Not Make AGP</th><th>No AGP</th></tr><tr><td>Exceeds</td><td>60-99</td><td>70-99</td><td>65-99</td></tr><tr><td>Meets</td><td>45-59</td><td>55-69</td><td>50-64</td></tr><tr><td>Approaching</td><td>30-44</td><td>40-54</td><td>35-49</td></tr><tr><td>Does Not Meet</td><td>1-29</td><td>1-39</td><td>1-34</td></tr></table>					Made AGP	Did Not Make AGP	No AGP	Exceeds	60-99	70-99	65-99	Meets	45-59	55-69	50-64	Approaching	30-44	40-54	35-49	Does Not Meet	1-29	1-39	1-34	<p>The Postsecondary and Workforce Readiness Indicator measures the preparedness of students for college or careers upon completing high school.
