These schools The plan type presented serve a student population where either: (1) all students have severe limitations that preclude appropriate above is based on the administration of state assessments, (2) all students attend on a part-time basis and come from other public schools percent of points earned of where the part-time students are counted in the enrollment of the other public school, or (3) more than 90% of the students have either an Individual Education Program and/or meet the definition of a high-risk student, as defined by the total points eligible on in the Educational Accountability Act of 2009. the framework: This AEC SPF is composed of required state measures but may also include additional optional measures. The optional AEC Performance: 60.0% - 100.0% measures are submitted by the local district and approved by CDE for inclusion in the AEC framework. Results for these optional measures are provided by the district aggregated at the school level. Districts are encouraged to report three years of data when available. AEC Improvement: Measures for the Academic Achievement and Academic Growth indicators have been weighted by N size. For measures 47.0% - 59.99% in these indicators, points eligible are assigned according to the number of students who participated in each measure. Measures where a greater number of students participated are worth comparatively more weight. The individual weight of each measure in these indicators is derived from: the total points eligible in the indicator (PE), the AEC Priority Improvement: total number of students represented across all measures in the indicator (Total N), and the total number of students 33.0% - 46.99% represented in the measure in question (Measure N): Measure Points Eligible = (Measure N/Total N) x PE AEC Turnaround: Measures for the Postsecondary Readiness and Student Engagement indicators are not weighted by N size. These 0.0% - 32.99% measures are apportioned equal weight within the indicator. Please note that due to rounding policies points eligible at the measure level may not sum exactly to the total points eligible displayed at the indicator and overall levels. Insufficient Data: Performance Indicator Ratings Cut-Points No reportable data.
