| The performance framework evaluates district and school performance on Academic Achievement, Academic Growth,<br>and Postsecondary & Workforce Readiness indicators. The percentage of points earned across all indicators<br>determines the final accreditation rating for a district or the final plan type for a school, which is displayed above. The<br>cut points for final ratings established by the State Board of Education are shown at the right of this page. Failure to<br>neet test participation, safety, and finance assurances may result in a rating being lowered by one level. Refer to the<br>accoring guide near the end of this report for more details on how ratings are determined. |  |                       |   |                        |   |   | Performan<br>Improvem<br>Priority Im<br>Turnaroun | ent<br>p.                  |  |

<sup>\*</sup>Under state accountability policy, 95% of students must participate in state assessments. Students who are excused from testing by a parent or guardian do not impact the Accountability Participation Rate that is used to determine whether the overall rating is reduced by one level. Districts or schools with less than 95% total participation in ELA and Math receive a "Low Total Participation" descriptor to help readers when interpreting accountability data. The descriptor does not impact framework calculations. Multilingual Learners in their first year in the U.S. who were eligible to take the ELP assessment count as participants for ELA.
