

Colorado's Unified Improvement Plan for Alternative Education Campuses for 2012-13

Organization Code: 0880 District Name: Denver County 1 School Code: 8995 School Name: Vista Academy SPF Year: 2012 Year: 1 Year

Section I: Summary Information about the School

Directions: This section summarizes your school's performance on the federal and state accountability measures in 2011-12. For federal accountability, Alternative Education Campuses (AECs) may be accountable to certain requirements for programs (e.g., Title I, TIG grant). For state accountability, AECs have a modified state AEC SPF report that uses AEC norms to focus on the key performance indicators of Achievement, Growth, Student Engagement and Postsecondary and Workforce Readiness. Where there are required state measures, these are noted below, but AECs may also have optional supplemental measures. AECs will need to complete the table to reflect their results on both required federal and state measures and any optional supplemental measures. This summary should accompany your improvement plan.

Student Performance Measures for State and Federal Accountability

Performance Indicators	Measures/ Metrics	2011-12 Federal and State Expectations		2011-12 School Results		Meets Expectations?	
	State Required Measure: TCAP/CSAP, Lectura, Escritura			dvanced at 60 th entile	School's % Pro	ficient/Advanced	Overall AEC Deling for
0	Description: % P+A in reading, writing, math and science.		MS	HS	MS	HS	Overall AEC Rating for Academic Achievement:
Academic Achievement	HS Expectation: Reading at/above 35.4%; Math	R	21.4%	35.4%	64.71%	34.78%	Meets
(Status)	at/above 4.4%; Writing at/above 14.6%; Science at/above 16.4%	М	6.2%	4.4%	42.65%	4.35%	* Consult your AEC School
	MS Expectation: Reading at/above 21.4%; Math at/above 6.2%; Writing at/above 16.7%; Science	W	16.7%	14.6%	45.59%	10.14%	Performance Framework for the ratings for each content area at
	at/above 12.1%	S	12.1%	16.4%	28.57%	15.38%	each level.
	State Required Measure: Median Student Growth Percentile (MGP) Description: Growth in TCAP/TCAP for reading,		MGP at/above 50		School's MGP

Student Performance Measures for State and Federal Accountability (cont.)

	State Required Measure: Completion Rate Description: % of students completing.	At/above 55.4% of all AECs using 4-year, 5-year, 6- year or 7-year completion rate			
	Expectation: At/above 55.4% of all AECs using 4-year, 5-year, 6-year or 7-year completion rate.	55.4%	(null)		
	Completion Rate Change Description: Increase in % of students completing	Change At/Above 2% using same year as best-of for prior year	School's Completion Rate Change		Overall AEC
	Expectation: Change At/Above 2% using same year as best-of for prior year	2%	(null)		Rating for Post
Post	State Required Measure: Dropout Rate Description: % of students dropping out. Expectation: Below 11.4%.	Below 11.4%	School's Dropout Rate		Secondary Readiness:
Secondary/ Workforce Readiness		Less than 11.4%	(null)		Does Not Meet
Reduilless	Dropout Rate Change Description: Decrease in % of students dropping out Expectation: At/Above 4%	At/Above 4%	School's Dropout Rate Change		* Consult your AEC School Performance
		4%	(null)		Framework for the ratings for each measure.
	State Required Measure: ACT Average Score by Content Area	Reading at/above 15.9; Math at/above 14.8; English at/above 13.7; Science at/above 15.7	ACT Average Score		
	Description: ACT average score in reading, math,	R 15.9	13.77		
	English, and science Expectation: Reading at/above 15.9; Math	M 14.8	15.59		
	at/above 14.8; English at/above 13.7; Science	E 13.7	12.30		
	at/above 15.7	S 15.7	14.20		

Accountability Status and Requirements for Improvement Plan

Program	Identification Process	Identification for Schoo	Directions for Completing Improvement Plan				
State Accountability							
Preliminary Recommended Plan Type	Plan assigned based on school's overall school performance framework score (achievement, growth, growth gaps, postsecondary and workforce readiness)	Accredited On Watch (CDE=Improvement)					
ESEA and Grant Accountab	pility						
Title I Formula Grant	Program's resources are allocated based upon the poverty rates of students enrolled in schools and districts and are designed to help ensure that all children meet challenging state academic standards.	Title I Schoolwide	In addition to the general requirements, all schools operating a Title I [Schoolwide/Targeted Assistance] program must complete the [Schoolwide/Targeted Assistance] addendum. Schools identified under another program (e.g., state accountability, Title I Focus School) will need to submit a plan for review by CDE by January 15, 2013. All other Title I schools will submit their plan to CDE for posting on SchoolView.org by April 15, 2013. CDE may require a review of the school's UIP during a monitoring site visit or during a desk review.				
Title I Focus School	Title I school with a (1) low graduation rate (regardless of plan type), and/or (2) Turnaround or Priority Improvement plan type with either (or both) a) low-achieving disaggregated student groups (i.e., minority, ELL, IEP and FRL) or b) low disaggregated graduation rate. This is a three-year designation.	Not Identified as a Title I Focus School	In addition to the general requirements, Focus Schools must identify the performance challenges for the lowest achieving disaggregated student group(s). The plan must include a root cause(s) and associated action steps that address the performance challenge(s) for the disaggregated student group(s). The UIP must be approved before CDE will release 2013-14 Title IA funds to the LEA. For required elements in the improvement plans, go to the Quality Criteria at: http://www.cde.state.co.us/uip/UIP_TrainingAndSupport_Resources.asp				
Tiered Intervention Grant (TIG)	Competitive grant (1003g) for schools identified as 5% of lowest performing Title I or Title I eligible schools, eligible to implement one of four reform models as defined by the USDE.	Contact DAP/SIP	In addition to the general requirements, TIG schools are expected to align activities funded through the grant with overall school improvement efforts in the UIP. All TIG activities must be included in the action steps of the action plan (e.g., activity, resources). All grantees will be expected to submit the school plan for CDE review by January 15, 2013. For required elements in the improvement plans, go to the Quality Criteria: http://www.cde.state.co.us/uip/UIP_TrainingAndSupport_Resources.asp				
Improvement Support Partnership (ISP) or TDIP	Competitive Title I grant to support district improvement through a diagnostic review (i.e., facilitated data analysis, SST) or an implementation focus (i.e., Best First Instruction, Leadership, Climate and Culture).	Contact DAP/SIP	[If NOT a grantee] n/a [If a grantee] In addition to the general requirements, the school is expected to align activities funded through the grant with overall school improvement efforts in the UIP. All grant activities must be included in the action steps of the action plan (e.g., activity, resources). All grantees will be expected to submit the school plan for CDE review by January 15, 2013. For required elements in the improvement plans, go to the Quality Criteria: http://www.cde.state.co.us/uip/UIP_TrainingAndSupport_Resources.asp

Section III: Narrative on Data Analysis and Root Cause Identification

This section corresponds with the "evaluate" portion of the continuous improvement cycle. The main outcome is to construct a narrative that describes the process and results of the analysis of the data for your school. The analysis should justify the performance targets and actions proposed in section IV. Two worksheets have been provided to help organize your data analysis for your narrative. This analysis section includes: identifying where the school did not at least meet minimum state and federal accountability expectations, describing progress toward targets for the prior school year, describing what performance data were used in the analysis of trends, identifying trends and priority performance challenges (negative trends), describing how performance challenges were prioritized, identifying the root causes of performance challenges, describing how the root causes were identified and verified and what data were used, and describing stakeholder involvement in the analysis. Additional guidance on how to engage in the data analysis process is provided in Unified Improvement Planning Handbook.

Directions: This chart supports analysis of progress made towards performance targets set for the 2011-12 school year (last year's plan). While this worksheet should be included in your UIP, *the main intent is to record your school's reflections to help build your data narrative.*

Performance Indicators	Targets for 2011-12 school year (Targets set in last year's plan)	Performance in 2011-12? Was the target met? How close was school in meeting the target?	Brief reflection on why previous targets were met or not met.
Academic Achievement (Status)	The Academic Achievement targets for the 2011-2012 year were baseline in nature because it was the school's first year.	The Federal and State Expectation data for the percent proficient/advances on the TCAP/CSAP scores were met in all categories for sixth, seventh, and eighth grades in Reading, Writing, Mathematics, and Science. In the high school, the goals were not met in all areas of Reading, Writing, Mathematics, and Science. The closest areas for the high school were in Math with a05 gap, Writing with a62 gap, and in science, with a -1.02 gap.	Regarding Academic Achievement: The 2011-2012 school year was a baseline data year, reflecting on the results leads us to discuss the diploma plus implementation and concepts of standards based grading. The overall schedule was examined to see if the best use of our resources was designated to our students. Focused intervention/remediation classes, as well as dedicated instruction in a blended model have been implemented for the 2012-2013 school year to address identified needs.

Performance Indicators	Targets for 2011-12 school year (Targets set in last year's plan)	Performance in 2011-12? Was the target met? How close was school in meeting the target?	Brief reflection on why previous targets were met or not met.
	Median Growth Percentiles (MGP) were set at /above 50.	The schools MGP per subject was 44 for reading, 31 for math, 44.5 for writing. Falling short of the 50 th percentile in all areas.	Regarding academic growth, external issues as networking are being addressed to allow the students to not experience technical issues in higher stakes testing situations.
Academic Growth	MAP growth data as they pertain to the percentage of students who met growth targets in reading, mathematics, and language arts. Target goals for these areas were 60%.	The actual performance reported was 39.10% in reading, 34.93% in Mathematics, and 47.69% in Language Arts.	This issue seemed to be a reoccurring issue during the 2011-2012 school year and we are focusing on utilizing district resources to help in this arena. Pertaining to student engagement, the
Student Engagement	Student engagement is a focus for the Vista climate. Each student was expected to take part in a CTE pathway, club or activity. This was tracked through the Regional Athletic Association Program (RAAP) in the far Northeast, as well as sponsors.	98% of our students participated in a co- curricular, interscholastic athletic program, or extra-curricular activity.	district is now collecting this data through infinite campus to access the student engagement at a district level. We are currently working on entering these activities in the ALT 1 course category. Post-secondary readiness is an area of focus
			for Vista academy. As a staff we are
Post Secondary Readiness	The 2011-2012 data keyed on 3 areas – Graduation Rate – 80% on the most resent 4-year, 5-year, 6-year or 7 year graduation rate.	As the 2011-2012 year was the initial year at Vista, graduation rates need additional data for comparisons.	committed to fine-tune our pedagogies to emphasize college or career readiness for all of our students, and it is never too early in their academic career to plan. We are collaboratively working to fine tune our
	Dropout Rate at or above State average and the mean ACT composite also at or above the state average.	The State target goal for dropout rates of less than 4%. Data were null as we need to have greater longitudinal numbers.	cohort/advisory classes in all grades six-12. Insertion of one-book-one school initiatives as well as affective education techniques for increasing student engagement and
		The mean ACT scores were lower than those of the State average in all areas except	relationship building is targeted during this time.

Performance Indicators	Targets for 2011-12 school year (Targets set in last year's plan)	Performance in 2011-12? Was the target met? How close was school in meeting the target?	Brief reflection on why previous targets were met or not met.
		Mathematics. The scores were: Reading (-2.13), Mathematics (+.79), English (-1.4), and Science (-1.5).	ACT scores were noticeably lower in three of the four areas. Upon our reflection, there could be a greater emphasis on interdisciplinary approaches to instruction in all content areas, including CTE and Electives.

Worksheet #2: Data Analysis

Directions: This chart supports planning teams in recording and organizing observations about school-level data in preparation for writing the required data narrative. Planning teams should describe positive and negative trends for all of the four performance indicators using at least three years of data and then prioritize the performance challenges (based on notable trends) that the school will focus its efforts on improving. The root cause analysis and improvement planning efforts in the remainder of the plan should be aimed at addressing the identified priority performance challenge (s). A limited number of priority performance challenges is recommended (no more than 3-5); a performance challenge may apply to multiple performance indicators. At a minimum, priority performance challenges must be identified in any of the four performance indicator areas where minimum state and federal expectations were not met for accountability purposes. Furthermore, schools are encouraged to consider observations recorded in the "last year's targets" worksheet. Finally, provide a brief description of the root cause analysis for any priority performance challenges. Root causes may apply to multiple priority performance challenges. You may add rows, as needed.

Performance Indicators	Description of Notable Trends (3 years of past state and local data)	Priority Performance Challenges	Root Causes
Academic Achievement (Status)	Vista Academy now in its second year of operations has baseline data from the 2012 TCAP. Reading: MIDDLE SCHOOL: 64.71 % of students in middle school were proficient/advanced in reading on the 2012 TCAP. HIGH SCHOOL: 34.78 % of students in high school were proficient/advanced in reading on the 2012 TCAP.	MIDDLE SCHOOL: 35.29 % of our middle school students scored in the Partially Proficient Unsatisfactory range in Reading. HIGH SCHOOL: 65.22 % of our high school students performed in the Unsatisfactory range in Reading	From the examination of the data, the leadership team determined that a root cause of these results could be a lack of structure and broad scope focus due to the use of Diploma Plus. We felt that going to a mapped curriculum with short cycle assessments that were delivered in a timely manner would benefit our results and our students. Another root cause from the examination of our systems is the appropriate use and functionality of the technology in the building. Appropriately addressing the staff development in the use and interpretation of computerized testing would benefit our students. The inexperience or comfort level of our staff with technology is a focus for school-wide improvement. From the analysis of classroom observations, a focus on high impact instructional moves and increasing our own awareness of critical theory and cultural

CDE Improvement Planning Template for Schools (Version 3.2 -- Last updated: July 9, 2012)

0

Performance Indicators	Description of Notable Trends (3 years of past state and local data)	Priority Performance Challenges	Root Causes
			competency, it is appropriate to consider the staff development to ensure the understanding of all of our student population.
			Root cause for the ACT analysis may align with lack of targeted focus on literacy and numeracy
	Please note – 2012-2013 is only in year 2 of existence.		
Academic Growth	MGP on TCAP/ CSAP	Extremely low scores in our high school: math performance scores (4:35% advanced or proficient), and in high school writing (10.14% advanced or proficient).	Student Data shows significant deficiencies in grade level scores from our high school students and these gaps lead to gross curricular repair needs. Literacy instruction knowledge across our core and elective teachers could lead to lower writing scores and the lack of the use of numeracy concepts from an interdisciplinary perspective.
	Please note – 2012-2013 is only in year 2 of existence.		
Student Engagement	This value was collected within the school last year. The district is now mandating that the data is recorded within Infinite Campus so it may be pulled and collected for analysis. It is the expectation that 100% of our students participate in at least one extra-curricular, co-curricular activity or an athletic	This was a strong part for Vista Academy with 98% or our students participating in an engagement activity.	Positive root causes would lend themselves to our relationships with our students, relaxed comfortable feel with approachable nature, consistent rules, and a solid mission and vision for the school.

CDE Improvement Planning Template for Schools (Version 3.2 -- Last updated: July 9, 2012)

Performance Indicators	Description of Notable Trends (3 years of past state and local data)	Priority Performance Challenges	Root Causes
	program that is sanctioned by the school or district.		}
	Please note – 2012-2013 is only in year 2 of existence.		
Post Secondary & Workforce Readiness	ACT scores were below the state average in all but 1 area (mathematics).	Increase our overall scores to be at or above state average. Vista was lower than those of the State average in all areas except Mathematics. The scores were: Reading (-2.13), Mathematics (+.79), English (-1.4), and Science (-1.5).	Instructors too focused on delivering "their" curriculum and focusing on Diploma Plus integration rather than the focus on broad scope curricular delivery. Instructors focusing on behavior rather than instruction.
	Please note – 2012-2013 is only in year 2 of existence.		

1

Data Narrative for School

Directions: Building on the data organized in Worksheet #1 and Worksheet #2, describe the process and results of the data analysis for the school, including review of prior years' targets, trends, priority performance challenges and root cause analysis. The narrative should address each aspect of the descriptions below. The narrative should not take more than five pages.

Data Narrative for School

Description of School Setting and Process for Data Analysis: Provide a very brief description of the school to set the context for readers (e.g., demographics). Include the general process for developing the UIP and participants (e.g., SAC).	Review Current Performance: Review the SPF and document any areas where the school did not meet state/ federal expectations. Consider the previous year's progress toward the school's targets. Identify the overall magnitude of the school's performance challenges.	Trend Analysis: Provide a description of the trend analysis that includes at least three years of data (state and local data). Trend statements should be provided in the four indicator areas and by disaggregated groups. Trend statements should include the direction of the trend and a comparison (e.g., state expectations, district average) to indicate why the trend is notable.	Priority Performance Challenges: Identify notable trends (or a combination of trends) that are the highest priority to address (priority performance challenges). No more than 3-4 are recommended. Provide a rationale for why these challenges have been selected and takes into consideration the magnitude of the school's over-all performance challenges.	Root Cause Analysis Identify at least one root cause for every priority performance challenge. Root causes should address adult actions, be under the control of the school, and address the priority performance challenge(s). Provide evidence that the root cause was verified through the use of additional data.
Narrative:				

Section IV: Action Plan(s)

This section addresses the "plan" portion of the continuous improvement cycle. First, you will identify your annual performance targets and the interim measures. This will be documented in the required School Target Setting Form below. Then you will move into action planning, which should be captured in the Action Planning Form.

School Target Setting Form

Directions: Complete the worksheet below. While schools may set targets for all performance indicators, at a minimum, they must set targets for those priority performance challenges identified in Section III (e.g., by disaggregated student groups, grade levels, subject areas).

Schools are expected to set their own annual targets for academic achievement, academic growth, academic growth gaps and postsecondary and workforce readiness. At a minimum, schools should set targets for each of the performance indicators where state expectations are not met – in each area where a priority performance challenge was identified; targets should also be connected to prioritized performance challenges. Consider last year's targets (see Worksheet #1) and whether adjustments need to be made. For each annual performance target, identify interim measures that will be used to monitor progress toward the annual targets at least guarterly during the school year.

School Target Setting Form

Action Planning Form for 2012-13 and 2013-14

Directions: Identify the major improvement strategy(s) for 2012-13 and 2013-14 that will address the root causes determined in Section III. For each major improvement strategy, identify the root cause(s) that the action steps will help to dissolve. Then, indicate which accountability provision or grant opportunity it will address. In the chart below, provide details about key action steps necessary to implement the major improvement strategy. Details should include the action steps that will be taken to implement the major improvement strategy, a general timeline, resources that will be used to implement the actions, and implementation benchmarks. Add rows in the chart, as needed. While space has been provided for three major improvement strategies, the school may add other major strategies, as needed.

Major Improvement Strategy #1: _Continue to incorporate the One Book One School Initiative while deepening the writing focus Root Cause(s) Addressed:

- Middle School writing scores on TCAP was
- High School writing scores on the TCAP was
