

Colorado's Unified Improvement Plan for Schools for 2012-15

Organization Code: 0880 District Name: DENVER COUNTY 1 School Code: 9425 School Name: WESTERLY CREEK ELEMENTARY SPF Year: 2012 Accountable by: 3 Year

Section I: Summary Information about the School

Directions: This section summarizes your school's performance on the federal and state accountability measures in 2011-12. In the table below, CDE has pre-populated the school's data in blue text. This data shows the school's performance in meeting minimum federal and state accountability expectations as shared through the School Performance Framework (SPF) data. This summary should accompany your improvement plan.

Student Performance Measures for State and Federal Accountability

Performance Indicators	Measures/ Metrics	2011-12 Federal and State Expectations			2011-12 School Results			Meets Expectations?	
			Elem	MS	HS	Elem	MS		HS
Academic Achievement (Status)	TCAP/CSAP, CoAlt/CSAPA, Lectura, Escritura Description: % P+A in reading, writing, math and science Expectation: %P+A is at or above the 50 th percentile by using 1-year or 3-years of data	R	72.05%	-	-	81.44%	-	-	Overall Rating for Academic Achievement: Meets * Consult your School Performance Framework for the ratings for each content area at each level.
		M	70.11%	-	-	83.06%	-	-	
		W	54.84%	-	-	68.45%	-	-	
		S	45.36%	-	-	66.67%	-	-	
Academic Growth	Median Student Growth Percentile Description: Growth in TCAP/CSAP for reading, writing and math and growth in CELApro for English language proficiency Expectation: If district met adequate growth: then median SGP is at or above 45. If district did not meet adequate growth: then median SGP is at or above 55.		Median Adequate SGP			Median SGP			Overall Rating for Academic Growth: Meets * Consult your School Performance Framework for the ratings for each content area at each level.
			Elem	MS	HS	Elem	MS	HS	
		R	19	-	-	60	-	-	
		M	25	-	-	53	-	-	
		W	32	-	-	57	-	-	
ELP	43	-	-	68	-	-			

Student Performance Measures for State and Federal Accountability (cont.)

Performance Indicators	Measures/ Metrics	2011-12 Federal and State Expectations	2011-12 School Results	Meets Expectations?	
Academic Growth Gaps	<p>Median Student Growth Percentile</p> <p>Description: Growth for reading, writing and math by disaggregated groups.</p> <p>Expectation: If disaggregated groups met adequate growth, median SGP is at or above 45. If disaggregated groups did not meet adequate growth, median SGP is at or above 55.</p>	<p>See your school's performance frameworks for listing of median adequate growth expectations for your district's disaggregated groups, including free/reduced lunch eligible, minority students, students with disabilities, English Language Learners and students below proficient.</p>	<p>Reading: FRL-47, Minority-49, reference group-60</p> <p>Math: FRL-35, Minority-39, reference group-52</p> <p>Writing: FRL-45, Minority-49, reference group-59</p>	<p>Overall Rating for Growth Gaps:</p> <p style="text-align: center; color: blue;">Approaching</p> <p>* Consult your School Performance Framework for the ratings for each student disaggregated group at each content area at each level.</p>	
	<p>Graduation Rate</p> <p>Expectation: at 80% or above on the most recent 4-year, 5-year, 6-year or 7-year graduation rate.</p>	<p>At 80% or above</p>	<p>Best of 4-year through 7- year Grad Rate</p> <p style="text-align: center;">- using a - year grad rate</p>	-	<p>Overall Rating for Post Secondary Readiness:</p> <p style="text-align: center;">-</p>
<p>Disaggregated Graduation Rate</p> <p>Expectation: at 80% or above on the disaggregated group's most recent 4-year, 5-year, 6-year or 7-year graduation rate.</p>	<p>At 80% or above for each disaggregated group</p>	<p>See your school's performance frameworks for listing of 4-year, 5-year, 6-year and 7-year graduation rates for disaggregated groups, including free/reduced lunch eligible, minority students, students with disabilities, and English Language Learners.</p>	-		
<p>Dropout Rate</p> <p>Expectation: At or below State average overall.</p>	-	-	-		
<p>Mean ACT Composite Score</p> <p>Expectation: At or above State average</p>	-	-	-		

Accountability Status and Requirements for Improvement Plan

Program	Identification Process	Identification for School	Directions for Completing Improvement Plan
State Accountability			
Preliminary Recommended Plan Type	Plan assigned based on school's overall school performance framework score (achievement, growth, growth gaps, postsecondary and workforce readiness)		Based on preliminary results, the school meets or exceeds state expectations for attainment on the performance indicators and is required to adopt and implement a Performance Plan. The plan must be submitted to CDE by April 15, 2013 to be uploaded on SchoolView.org, unless other programs require an earlier submission. Refer to the UIP website for more detailed directions on plan submission, as well as the UIP Handbook to ensure that all required elements are captured in the school's plan at: http://www.cde.state.co.us/uiip/UIP_TrainingAndSupport_Resources.asp . Once the plan type for the school has been finalized, this report will be re-populated in December 2012.
ESEA and Grant Accountability			
Title I Formula Grant	Program's resources are allocated based upon the poverty rates of students enrolled in schools and districts and are designed to help ensure that all children meet challenging state academic standards.	Does not receive Title I funds	The school does not receive Title I funds and does not need to meet the additional Title I requirements.
Title I Focus School	Title I school with a (1) low graduation rate (regardless of plan type), and/or (2) Turnaround or Priority Improvement plan type with either (or both) (a) low-achieving disaggregated student groups (i.e., minority, ELL, IEP and FRL) or (b) low disaggregated graduation rate. This is a three-year designation.	Not identified as a Title I Focus School	This school has not been identified as a Title I Focus school and does not need to meet the additional requirements.
Tiered Intervention Grant (TIG)	Competitive grant (1003g) for schools identified as 5% of lowest performing Title I or Title I eligible schools to implement one of four reform models as defined by the USDE.	Not a TIG Awardee	This school does not receive a TIG grant and does not need to meet those additional requirements.
Improvement Support Partnership (ISP) or Title I School Improvement Grant	Competitive Title I grant to support school improvement through a diagnostic review (i.e., facilitated data analysis, SST) or an implementation focus (i.e., Best First Instruction, Leadership, Climate and Culture).	Not a Title I School Improvement Grant Awardee	This school does not receive a School Improvement grant and does not need to meet those additional requirements.

Section II: Improvement Plan Information

Directions: This section should be completed by the school or district.

Additional Information about the School

Comprehensive Review and Selected Grant History		
Related Grant Awards	Has the school received a grant that supports the school's improvement efforts? When was the grant awarded?	no
School Support Team or Expedited Review	Has (or will) the school participated in an SST review or Expedited Review? When?	no
External Evaluator	Has the school partnered with an external evaluator to provide comprehensive evaluation? Indicate the year and the name of the provider/tool used.	no

Improvement Plan Information

The school is submitting this improvement plan to satisfy requirements for (check all that apply):

- State Accountability
 Title IA (Targeted Assistance or Schoolwide)
 Title I Focus School
 Tiered Intervention Grant (TIG)
 Implementation Support Partnership Grant (ISP) or Title I School Improvement Grant
 Other: _____

School Contact Information (Additional contacts may be added, if needed)		
1	Name and Title	Jill Corcoran, Principal

	Phone	720.424.3160
	Mailing Address	Westerly Creek Elementary, 8800 E. 28 th Avenue, Denver 80238
2	Name and Title	Marnie Moody Cooke, Assistant Principal
	Email	Marnie_moody@dpsk12.org
	Phone	720.424.3160
	Mailing Address	Westerly Creek Elementary, 8800 E. 28 th Avenue, Denver 80238

Section III: Narrative on Data Analysis and Root Cause Identification

This section corresponds with the “evaluate” portion of the continuous improvement cycle. The main outcome is to construct a narrative that describes the process and results of the analysis of the data for your school. The analysis should justify the performance targets and actions proposed in section IV. Two worksheets have been provided to help organize your data analysis for your narrative. This analysis section includes: identifying where the school did not at least meet minimum state and federal accountability expectations, describing progress toward targets for the prior school year, describing what performance data were used in the analysis of trends, identifying trends and priority performance challenges (negative trends), describing how performance challenges were prioritized, identifying the root causes of performance challenges, describing how the root causes were identified and verified and what data were used, and describing stakeholder involvement in the analysis. Additional guidance on how to engage in the data analysis process is provided in Unified Improvement Planning Handbook.

Worksheet #1: Progress Monitoring of Prior Year’s Performance Targets

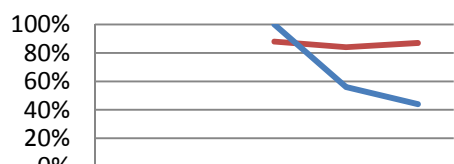

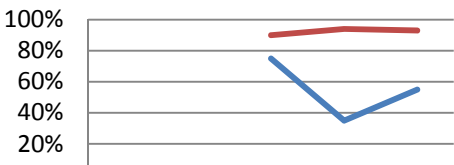

Directions: This chart supports analysis of progress made towards performance targets set for the 2011-12 school year (last year’s plan). While this worksheet should be included in your UIP, *the main intent is to record your school’s reflections to help build your data narrative.*

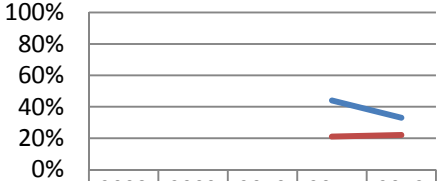

Performance Indicators	Targets for 2011-12 school year (Targets set in last year’s plan)	Performance in 2011-12? Was the target met? How close was school in meeting the target?	Brief reflection on why previous targets were met or not met.
Academic Achievement (Status)	Reading: 86% P/A	84% P/A. Target not met. 2% below target.	Beginning in the fall of 2010, WCE focused school improvement efforts in the area of writing. Although we set targets for writing across content areas, our focus was too broad and we only saw some growth in writing. In addition to our unclear focus on writing pedagogy, we failed to note learning disparities among our diverse learners in all areas. Prior to the fall of 2012, WCE’s SPF had limited academic growth gap data on disaggregated groups. 2011-2012 marked the first year that we had sufficient numbers of FRL and minority students to get conclusive growth measures. As a result, our status data is mostly flat, and disaggregated groups continue to lag behind the general population in both status and growth areas.
	Writing: 72% P/A	72% P/A. Target not met. .4% below target.	
	Math: 90% P/A	84% P/A. Target not met. 6.4% below target.	
Academic Growth	Reading: No target set	60 – Compared to similar school cluster data of 62	
	Writing: MGP - 54	59 – Target Met. Exceeded MGP by 5 percentiles.	
	Math: No Target set	51 – Compared to similar school cluster data of 60	
Academic Growth Gaps	No targets set for disaggregated groups prior to 2011-2012. 2012 marks first year with conclusive growth gap data.	Reading: FRL-47, Minority-49, reference group-60	
		Math: FRL-35, Minority-39, reference group-51	
		Writing: FRL-45, Minority-49, reference group-59	

Worksheet #2: Data Analysis

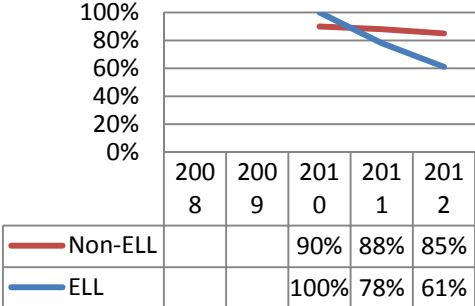

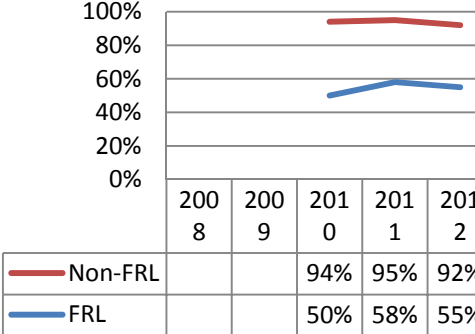

Directions: This chart supports planning teams in recording and organizing observations about school-level data in preparation for writing the required data narrative. Planning teams should describe positive and negative trends for all of the four performance indicators using at least three years of data and then prioritize the performance challenges (based on notable trends) that the school will focus its efforts on improving. The root cause analysis and improvement planning efforts in the remainder of the plan should be aimed at addressing the identified priority performance challenge(s). A limited number of priority performance challenges is recommended (no more than 3-5); a performance challenge may apply to multiple performance indicators. At a minimum, priority performance challenges must be identified in any of the four performance indicator areas where minimum state and federal expectations were not met for accountability purposes. Furthermore, schools are encouraged to consider observations recorded in the "last year's targets" worksheet. Finally, provide a brief description of the root cause analysis for any priority performance challenges. Root causes may apply to multiple priority performance challenges. You may add rows, as needed.

Performance Indicators	Description of Notable Trends (3 years of past state and local data)	Priority Performance Challenges	Root Causes												
Academic Achievement (Status)	<p>Reading: The school's overall percentage of students scoring proficient or advanced in TCAP Reading has <i>remained flat</i> from 2010 to 2012 (88% to 83% to 84%).</p> <ul style="list-style-type: none"> o Black - 42% o Hispanic - 69% o ELL - 38% o FRL - 55% o SPED - 33% <div style="border: 1px solid black; padding: 10px; margin: 10px 0;"> <p style="text-align: center;">TCAP Reading</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th></th> <th>2008</th> <th>2009</th> <th>2010</th> <th>2011</th> <th>2012</th> </tr> </thead> <tbody> <tr> <td>Reading</td> <td></td> <td></td> <td>88%</td> <td>83%</td> <td>84%</td> </tr> </tbody> </table> </div>		2008	2009	2010	2011	2012	Reading			88%	83%	84%	<p>The school's overall percentage of students scoring proficient or advanced in all TCAP content areas have remained flat or declined slightly from 2010 to 2012, with significant gaps between disaggregated groups and our total population.</p> <p>The school's median SGP in Reading and Math have declined 5 and 7 percentiles from 2011 to 2012, and there are significant gaps between disaggregated groups' MGP and our total population.</p>	<p>Instruction has not been differentiated to meet the needs of our diverse learners. Specifically we are lacking in the following areas:</p> <ul style="list-style-type: none"> • Consistent strategies in providing content-based differentiated instruction. All students, including students who need academic support to those students who are gifted and talented require differentiated instruction. <ul style="list-style-type: none"> o A heightened focus on a data driven culture and action in which we train staff on data analysis, and implement effective structures to support regular and high quality data analysis and action. This will enable us to differentiate for all students across all content areas in a time efficient manner, particularly for students with multiple needs. o Awareness of our cultural differences toward students who do not reflect the dominant culture of our school. This extends to implementing effective teaching strategies for these students and the impact our biases have on academic achievement.

Data Narrative for School

Directions: Building on the data organized in Worksheet #1 and Worksheet #2, describe the process and results of the data analysis for the school, including review of prior years' targets, trends, priority performance challenges and root cause analysis. The narrative should address each aspect of the descriptions below. The narrative should not take more than five pages.

Data Narrative for School

<p>Description of School Setting and Process for Data Analysis: Provide a very brief description of the school to set the context for readers (e.g., demographics). Include the general process for developing the UIP and participants (e.g., SAC).</p>		<p>Review Current Performance: Review the SPF and document any areas where the school did not meet state/ federal expectations. Consider the previous year's progress toward the school's targets. Identify the overall magnitude of the school's performance challenges.</p>		<p>Trend Analysis: Provide a description of the trend analysis that includes at least three years of data (state and local data). Trend statements should be provided in the four indicator areas and by disaggregated groups. Trend statements should include the direction of the trend and a comparison to state expectations or trends to indicate why the trend is notable.</p>		<p>Priority Performance Challenges: Identify notable trends (or a combination of trends) that are the highest priority to address (priority performance challenges). No more than 3-4 are recommended. Provide a rationale for why these challenges have been selected and takes into consideration the magnitude of the school's over-all performance challenges.</p>		<p>Root Cause Analysis Identify at least one root cause for every priority performance challenge. Root causes should address adult actions, be under the control of the school, and address the priority performance challenge(s). Provide evidence that the root cause was verified through the use of additional data.</p>

School Setting/Process for Data Analysis

WCE experienced exponential growth in the last three years, in which the overall population and disaggregated groups tripled in size since the 2009-2010 school year. The beginning of the 2012-2013 school year marked our largest numbers yet: 670 students were enrolled in ECE through 5th grade. Of those 670 students, 68% were white, 11% were black, 10% were Hispanic, 5% were Asian and 2% were American Indian or Alaskan Native. 18% of our students received free or reduced lunch, 6% were identified as English Language Learners and 8% were students with disabilities. In the three years that Westerly Creek participated in high-stakes, statewide testing, it has met or exceeded state and district expectations in the area of academic achievement (status). 2012 is the first year our school has academic growth and academic growth gap data with which to analyze, determine performance challenges and identify root causes.

DPS provided extensive support in helping our school plan our UIP process for 2012-2013, by sharing protocols and exemplars with which to guide our work. In August 2012, with the help of our Data Assessment Partner and School Improvement Partner, we led a data analysis protocol with teachers to examine TCAP Subgroup Performance data and produce trend statements. Although our status data met expectations, our staff was concerned with the significant discrepancies between our white students and subgroups. They wrote trend statements for each content area and performance indicator (please see Trend Analysis section of Narrative, p.8).

Reviewing Current Performance

The academic achievement data our staff uncovered in all content areas describe the same issues that were highlighted in our student performance measures for state expectations. In the state's Academic Growth Gap indicator (please see page 2), we were only "Approaching" for our subgroups (47, 35 and 45 MGP for FRL in Reading, Math and Writing AND 49, 39 and 49 for **Minority Combined** students in Reading, Math and Writing). These gaps are charted below and are also evident in the Trend Analysis section of this Narrative, p.9.

Trend Analysis

Using the TCAP Subgroup Performance Data, our teachers noted the following gaps in **Math** between our total number (84%) of proficient/advanced students: black students were 39% P/A (down 8% from 2011), Hispanic students were 71% P/A (down 17% from 2011), ELLs were 56% P/A (down 15% from 2011), FRL students were 55% and SPED students were 39% P/A (down 17% from 2011). Compared to these concerning patterns, **Reading** data were largely flat and there were achievement gaps for all subgroups. **Writing** data was the most positive data we examined, in which our total number (72%) of proficient/advanced students went up 2% from the previous year with the following trends: Black students were 39% P/A (up 21% from 2011), Hispanic students were 54% P/A, ELL students were 25% P/A, FRL students were 39% P/A, and SPED students were 22% P/A (up 11% from 2011). Some of our writing data were encouraging, given our school's focus on this area for the last two school years. This led to conversations with staff about what we want to continue to do, with respect to writing: using rubrics that are aligned vertically, providing models and exemplars for student use, and using district PD resources for teaching writing.

Regardless of this small success in writing, the directions of most of our trends in all content areas and subgroups were flat or declining, and reinforced what we learned from our state's SPF rating in Academic Growth Gaps; we are indeed approaching and need to close the achievement gaps for all disaggregated groups to improve instruction and learning for all. Please see page 6 for trend statements in each of our school's performance indicators.

Priority Performance Challenges

Our administrative team synthesized these trend statements to produce a **Priority Performance Challenge** that was applicable for both status and growth indicators in all content areas. Although we had both content-specific or subgroup specific performance challenges, we decided to stay as broad as possible, in order to uncover big systemic or programmatic root causes that spanned academic status and growth, content areas and disaggregated groups. We decided upon the following as our priority performance challenge: *"The school's overall percentage of students scoring proficient or advanced in all content areas in TCAP have remained flat or declined slightly from 2011 to 2012, with significant gaps between disaggregated groups and our total population."* This statement helped us better understand that our disaggregated groups performance has a significant impact on our overall performance. Our teachers used this overarching, notable trend to brainstorm possible root causes, and we uncovered several systemic and programmatic causes (please see below or page 6).

Root Cause Analysis

As mentioned above, our Priority Performance Challenge's focus on disaggregated student groups was the basis for initially brainstorming root causes with our entire staff. Our staff of 45 teachers was broken in to smaller groups, in which teachers and a facilitator used the "Five Whys" protocol to narrow our thinking regarding possible root causes. Staff completed the brainstorming activity, and later our School Leadership Team met to debrief the brainstorm, and categorize the 100 or so root causes our staff generated. We agreed that we were lacking in differentiation and named two areas that were surfaced in the brainstorming activity. We think we need to improve in creating and maintaining a data-driven culture and also be more aware of the cultural differences that we have as a learning community. Each of them address adult actions, are under the control of the school and address our priority performance challenge. These were each also verified through the use of additional data, specifically MGP data we received from the state on these subgroups.

Section IV: Action Plan(s)

This section addresses the “plan” portion of the continuous improvement cycle. First, you will identify your annual performance targets and the interim measures. This will be documented in the required School Target Setting Form below. Then you will move into action planning, which should be captured in the Action Planning Form.

School Target Setting Form

Directions: Complete the worksheet below. While schools may set targets for all performance indicators, at a minimum, they must set targets for those priority performance challenges identified in Section III (e.g., by disaggregated student groups, grade levels, subject areas).

Schools are expected to set their own annual targets for academic achievement, academic growth, academic growth gaps and postsecondary and workforce readiness. At a minimum, schools should set targets for each of the performance indicators where state expectations are not met – in each area where a priority performance challenge was identified; targets should also be connected to prioritized performance challenges. Consider last year’s targets (see Worksheet #1) and whether adjustments need to be made. For each annual performance target, identify interim measures that will be used to monitor progress toward the annual targets at least quarterly during the school year.

School Target Setting Form

Performance Indicators	Measures/ Metrics		Priority Performance Challenges	Annual Performance Targets		Interim Measures for 2012-13	Major Improvement Strategy
				2012-13	2013-14		
Academic Achievement (Status)	TCAP/CSAP, CoAlt/CSAPA, Lectura, Escritura	R	The school’s overall percentage of students scoring proficient or advanced in TCAP Reading has <i>remained flat</i> from 2010 to 2012 (88% to 83% to 84%).	89%	92%	2 nd – 5 th grade students will increase proficiency from 84% to 89% on midyear STAR tests by December, 2012. STAR Mid-year Status: Grades K-5 Overall 89% P/A	<u>Schoolwide focus on Data-Driven Instruction</u>
		M	The school’s overall percentage of students scoring proficient or advanced in TCAP Math has <i>declined slightly</i> from 2011 to 2012 (90% to 88% to 84%).	92%	94%	2 nd - 5 th grade students will increase proficiency from 84% to 92% on midyear Math interims by December, 2012. District Math Interim Mid-Year Status: Grades 2 – 5 Overall 88% P/A	
		W	The school’s overall percentage of students scoring proficient or advanced in TCAP Writing has <i>remained flat</i> from 2011 to 2012 (71% to 70% to 72%).	72%	77%	2 nd – 5 th grade students will increase proficiency from 72% to 74% on midyear Writing	

Westerly Creek Elementary 2012-2015

						interims by December, 2012. District Writing Interim Mid-Year Status: Grades 2 – 5 Overall 67% P/A	
		S	The school's overall percentage of students scoring proficient or advanced in TCAP Science is 75% in 2012.	75%	77%	Mid-year data unavailable at this time	

Academic Growth	Median Student Growth Percentile (TCAP/CSAP & CELApro)	R					
		M					
		W					
		ELP					
Academic Growth Gaps	Median Student Growth Percentile	R	Median SGP in TCAP Reading is significantly lower for FRL and Minority Combined groups than the reference group (47 and 49 compared to 62/63.5 – DPS data).	55	55	Mid-Year Update STAR Reading grades K-5 (December/January 2012): Minority Combined students with Fall reading proficiencies of UI, I, W – 44% (18/41) moved one proficiency band in the Mid-Year STAR assessment.	
		M	Median SGP in TCAP Math is significantly lower for FRL and Minority Combined groups than the reference group (35 and 39 compared to 54/52 – DPS data).	55	55	Mid-Year Update District Math Interim grades 2-5 Minority Combined students with Fall 2012 proficiencies of U, PP, or P - 39% (39/100) moved up one or more proficiency bands in the Mid-Year Interim.	
		W	Median SGP in TCAP Writing is significantly lower for FRL and Minority Combined groups than the reference group (45 and 49 compared to 60.5/61.5 – DPS data).	55	55	Mid-Year Update District Writing Interim grades 2-5 Minority Combined students with BoY and Mid-year	

Westerly Creek Elementary 2012-2015

						scores - 53% (60/114) moved up at least one or more proficiency bands.

Action Planning Form for 2012-13 and 2013-14

Directions: Identify the major improvement strategy(s) for 2012-13 and 2013-14 that will address the root causes determined in Section III. For each major improvement strategy, identify the root cause(s) that the action steps will help to dissolve. Then, indicate which accountability provision or grant opportunity it will address. In the chart below, provide details about key action steps necessary to implement the major improvement strategy. Details should include the action steps that will be taken to implement the major improvement strategy, a general timeline, resources that will be used to implement the actions, and implementation benchmarks. Add rows in the chart, as needed. While space has been provided for three major improvement strategies, the school may add other major strategies, as needed.

Major Improvement Strategy #1: Schoolwide focus on Data-Driven Instruction **Root Cause(s) Addressed:** Differentiation: Lacking in Schoolwide Data-Driven Culture and Action

Accountability Provisions or Grant Opportunities Addressed by this Major Improvement Strategy (check all that apply):
